665.5 NAS 2d ed. V.1

## CONTENTS

Page

CHAPTER I
The Principles and Practice of Distillation 1

CHAPTER II
The Production of Motor Fuels from Petroleum by Cracking 74

CHAPTER III
The Production of Motor Fuels by the Extraction of Gasoline from Natural Gas 99

CHAPTER IV
Refining of Motor Fuels 136

CHAPTER V
Storage, Distribution and insurance 275

CHAPTER VI
Benzole – Its Production and Use as a Motor Fuel 311

CHAPTER VII
The Production of Motor Fuels by the Hydrogenation Process as Applied to Mineral Oils and Coals 325

CHAPTER VIII
Pyrolysis and Polymerisation Processes for the Production of Gasolines from Refinery and Natural 368

CHAPTER IX
Alcohol Fuels 430

CHAPTER X
Synthetic Fuels and Auxiliary Supplies of Motor Spirits 529
