

CONTENTS

Part I: Introduction to UNIX	1
1. Introduction to UNIX	3
2. Your UNIX Account	17
3. Getting Started	25
4. Tutorial: Getting Started (X/Motif)	35
5. Tutorial: Getting Started (CDE)	51
Part II: UNIX File System	67
6. The UNIX File system	69
7. Tutorial: Working with Files	85
8. Tutorial: Working with Directories	95
9. Tutorial: Using File Manager	103
Part III: UNIX Shells	113
10. UNIX Shells	115
11. Tutorial: Working with the Shell	129
12. Tutorial: Using Additional Shell Features	141
Part IV: Text Editors	153
13. Tutorial: Text Editors	155
14. Tutorial: Editing with vi	159
15. Tutorial: Editing with emacs	181
16. Tutorial: Editing with pico	195
17. Tutorial: Editing with Text Editor	205
Part V: UNIX Networking	215
18. Tutorial: UNIX Networking	217
19. Tutorial: Using Mail and mailx	229
20. Tutorial: Processing Mail with pine	241
21. Tutorial: Processing Mail with Mailer	251
22. Tutorial: Logging in Remotely	259
23. Tutorial: Transferring Files	265
24. Tutorial: Reading the News	277
25. Tutorial: Browsing the WWW	285
Part VI: Startup Files	393
26. Startup Files	295
27. Tutorial: Using sh & ksh Startup Files	305
28. Tutorial: Using csh & tcsh Startup Files	315
29. Tutorial: Using bash Startup Files	325
Part VII: Shell Scripts	337
30. Shell Scripts	339
31. Tutorial: Creating Shell Scripts	351
Part VIII: Programming under UNIX	361
32. Programming Under UNIX	363
33. Tutorial: Programming in C	369
34. Tutorial: Programming in C++	383
35. Tutorial: Programming in Fortran	397
36. Tutorial: Programming in Java	409
Appendices	415
Index	443
