

# Contents

<b>Chapter 1 Introduction</b> . . . . .	<b>1</b>
1. General Outline . . . . .	1
2. Classification of Semiconductor Devices . . . . .	3
3. Specific Remarks . . . . .	5

## PART I SEMICONDUCTOR PHYSICS

<b>Chapter 2 Physics and Properties of Semiconductors— A Résumé</b> . . . . .	<b>11</b>
1. Introduction . . . . .	11
2. Crystal Structure . . . . .	12
3. Energy Bands. . . . .	17
4. Carrier Concentration at Thermal Equilibrium . . . . .	25
5. Carrier Transport Phenomena . . . . .	38
6. Phonon Spectra and Optical, Thermal, and High-Field Properties of Semiconductors . . . . .	50
7. Basic Equations for Semiconductor Device Operation . . . . .	65

## PART II $p$ - $n$ JUNCTION DEVICES

<b>Chapter 3 <math>p</math>-<math>n</math> Junction Diodes</b> . . . . .	<b>77</b>
1. Introduction . . . . .	77
2. Basic Device Technology . . . . .	78

3. Depletion Region and Depletion Capacitance . . . . .	84
4. Current-Voltage Characteristics . . . . .	96
5. Junction Breakdown . . . . .	109
6. Transient Behavior and Noise . . . . .	127
7. Terminal Functions . . . . .	131
8. Heterojunction . . . . .	140
<b>Chapter 4 Tunnel Diode and Backward Diode . . . . .</b>	<b>150</b>
1. Introduction . . . . .	150
2. Effects of High Doping . . . . .	151
3. Tunneling Processes . . . . .	156
4. Excess Current . . . . .	169
5. Current-Voltage Characteristics Due to Effects of Doping, Temperature, Electron Bombardment, and Pressure . . . . .	172
6. Equivalent Circuit . . . . .	190
7. Backward Diode . . . . .	193
<b>Chapter 5 Impact-Avalanche Transit-Time Diodes (IMPATT Diodes) . . . . .</b>	<b>200</b>
1. Introduction . . . . .	200
2. Static Characteristics . . . . .	202
3. Basic Dynamic Characteristics . . . . .	215
4. Generalized Small-Signal Analysis . . . . .	221
5. Large-Signal Analysis . . . . .	234
6. Noise . . . . .	240
7. Experiments . . . . .	244
<b>Chapter 6 Junction Transistors . . . . .</b>	<b>261</b>
1. Introduction . . . . .	261
2. Static Characteristics . . . . .	262
3. Microwave Transistor . . . . .	279
4. Power Transistor . . . . .	295
5. Switching Transistor . . . . .	302
6. Unijunction Transistor . . . . .	310
<b>Chapter 7 <i>p-n-p-n</i> and Junction Field-Effect Devices . . . . .</b>	<b>319</b>
1. Introduction . . . . .	319
2. Shockley Diode and Semiconductor-Controlled Rectifier . . . . .	320
3. Junction Field-Effect Transistor and Current Limiter . . . . .	340

**PART III INTERFACE AND THIN-FILM DEVICES**

<b>Chapter 8 Metal-Semiconductor Devices . . . . .</b>	<b>363</b>
1. Introduction . . . . .	363
2. Schottky Effect . . . . .	364
3. Energy Band Relation at Metal-Semiconductor Contact . . . . .	368
4. Current Transport Theory in Schottky Barriers . . . . .	378
5. Measurement of Schottky Barrier Height . . . . .	393
6. Clamped Transistor, Schottky Gate FET, and Metal-Semiconductor IMPATT Diode . . . . .	410
7. Mott Barrier, Point-Contact Rectifier, and Ohmic Contact . . . . .	414
8. Space-Charge-Limited Diode . . . . .	417
<b>Chapter 9 Metal-Insulator-Semiconductor (MIS) Diodes . . . . .</b>	<b>425</b>
1. Introduction . . . . .	425
2. Ideal Metal-Insulator-Semiconductor (MIS) Diode . . . . .	426
3. Surface States, Surface Charges, and Space Charges . . . . .	444
4. Effects of Metal Work Function, Crystal Orientation, Temperature, Illumination, and Radiation on MIS Characteristics . . . . .	467
5. Surface Varactor, Avalanche, Tunneling, and Electroluminescent MIS Diodes . . . . .	479
6. Carrier Transport in Insulating Films . . . . .	492
<b>Chapter 10 IGFET and Related Surface Field Effects . . . . .</b>	<b>505</b>
1. Introduction . . . . .	505
2. Surface-Space-Charge Region Under Nonequilibrium Condition . . . . .	506
3. Channel Conductance . . . . .	512
4. Basic Device Characteristics . . . . .	515
5. General Characteristics . . . . .	524
6. IGFET with Schottky Barrier Contacts for Source and Drain . . . . .	546
7. IGFET with a Floating Gate—A Memory Device . . . . .	550
8. Surface Field Effects on $p$ - $n$ Junctions and Metal- Semiconductor Devices . . . . .	555
<b>Chapter 11 Thin-Film Devices . . . . .</b>	<b>567</b>
1. Introduction . . . . .	567
2. Insulated-Gate Thin-Film Transistors (TFT) . . . . .	568

3. Hot-Electron Transistors . . . . .	587
4. Metal-Insulator-Metal Structure. . . . .	614

## **PART IV OPTOELECTRONIC DEVICES**

<b>Chapter 12 Optoelectronic Devices . . . . .</b>	<b>625</b>
--	------------

1. Introduction . . . . .	625
2. Electroluminescent Devices . . . . .	626
3. Solar Cell . . . . .	640
4. Photodetectors . . . . .	653

<b>Chapter 13 Semiconductor Lasers . . . . .</b>	<b>687</b>
--	------------

1. Introduction . . . . .	687
2. Semiconductor Laser Physics . . . . .	688
3. Junction Lasers . . . . .	699
4. Other Pumping Methods and Laser Materials . . . . .	723

## **PART V BULK-EFFECT DEVICES**

<b>Chapter 14 Bulk-Effect Devices . . . . .</b>	<b>731</b>
---	------------

1. Introduction . . . . .	731
2. Bulk Differential Negative Resistance . . . . .	732
3. Ridley-Watkins-Hilsum (RWH) Mechanism . . . . .	741
4. Gunn Oscillator and Various Modes of Operation . . . . .	749
5. Associated Bulk-Effect Devices . . . . .	778

<b>Author Index . . . . .</b>	<b>789</b>
-------------------------------	------------

<b>Subject Index . . . . .</b>	<b>799</b>
--------------------------------	------------
