

# PESTICIDE ANALYTICAL MANUAL VOLUME I

## TABLE OF CONTENTS

### Introduction to PAM

### Preface to PAM I 3rd edition

### Guide to Use of PAM I

### Chapter 1 Regulatory Operations

- 101 Regulatory Policy
- 102 Preparation of Analytical Samples
- 103 Method Application in Regulatory Analysis
- 104 Analytical Results
- 105 Analytical Limits of Quantitation

### Chapter 2 General Analytical Operations and Information

- 201 Percentage Fat, Water, and Sugars in Foods
- 202 Basic Analytical Techniques
- 203 Equipment and Procedures for Comminuting
- 204 Special Reagent Preparation
- 205 Reference Standards
- 206 Quality Assurance/Quality Control
- 207 Laboratory Safety
- 208 Hazardous Waste Disposal

### Chapter 3 Multiclass Multiresidue Methods

- 301 General Information
- 302 Method I for Nonfatty Foods
- 303 Method II for Nonfatty Foods
- 304 Method for Fatty Foods

### Chapter 4 Selective Multiresidue Methods

- 401 Method for N-Methylcarbamates
- 402 Method for Acids and Phenols
- 403 Method for Phenylurea Herbicides
- 404 Method for Benzimidazoles

**Chapter 5 Gas Liquid Chromatography**

- 501 General Information
- 502 Columns
- 503 Detectors
- 504 Quantitation
- 505 Bibliography

**Chapter 6 High Performance Liquid Chromatography**

- 601 General Information
- 602 Columns
- 603 Mobile Phase Selection, Preparation, and Delivery
- 604 Injection Systems
- 605 Detectors
- 606 Residue Identification and Quantitation
- 607 Quality Assurance and Troubleshooting
- 608 Bibliography

**Appendix I PESTDATA****Appendix II Protocols and Reporting Forms for Testing Chemicals  
Through PAM Multiresidue Methods****Index to PAM I Methods, by Chemicals Tested for Recovery****Index to Names Used for Chemicals in PAM I****Index to CAS Registry Numbers for Chemicals in PAM I****Index to Subjects**
