

## Contents

CONTRIBUTORS . . . . .	ix
PREFACE . . . . .	xi
CONTENTS OF OTHER VOLUMES . . . . .	xiii

### THE ABSORPTION, DISTRIBUTION, AND EXCRETION OF DRUGS AND POISONS AND THEIR METABOLITES

*Abraham Stolman*

I. Gases and Vapors (Poisons through Inhalation) . . . . .	2
II. Volatile Liquids (Steam Distillation) . . . . .	18
III. Drugs Extractable by Organic Solvents from Aqueous Alkaline Solutions . . . . .	24
IV. Marihuana . . . . .	88
References . . . . .	93

### A SYSTEM FOR THE TOXICOLOGICAL ANALYSIS OF DRUGS IN BIOLOGICAL SPECIMENS

*Leo R. Goldbaum and Abel M. Dominguez*

I. Introduction . . . . .	101
II. Procedure for Analysis of Tissue . . . . .	112
III. Discussion . . . . .	112
IV. Simplified Wallace Procedure for the Identification of Drugs . . . . .	133
V. Analysis of Urine Samples for Drugs . . . . .	135
VI. Determination of Total Morphine in Urine . . . . .	146
References . . . . .	148

### THE PHENOTHIAZINES

*Sidney Lionel Tompsett*

I. Introduction . . . . .	151
II. Materials . . . . .	152
III. Metabolites. . . . .	153

IV. Spectrofluorometry . . . . .	154
V. UV Spectrophotometry . . . . .	157
VI. Thin-Layer Chromatography . . . . .	169
VII. Color Reactions . . . . .	170
VIII. Gastric Contents . . . . .	170
IX. Soft Tissues . . . . .	171
X. Interference from the Presence of Other Drugs . . . . .	175
XI. Phenothiasine Levels in Blood Serum and Urine . . . . .	177
XII. Summary . . . . .	184
References . . . . .	184

## FLUORESCENCE IN TOXICOLOGY

*M. L. Bastos and S. K. Mulé*

I. Introduction . . . . .	187
II. Fundamentals of Fluorescence Analysis . . . . .	189
III. Theoretical Aspects of Fluorescence. . . . .	192
IV. Practical Aspects of Fluorescence . . . . .	198
V. Applications of Spectrophotofluorometry in Toxicology . . . . .	207
References . . . . .	266

## TOXICOLOGY OF NEW SYNTHETIC ORGANIC POLYMERS USED IN CONTAINERS FOR FOOD, PHARMACEUTICAL COMPOUNDS, AND DRINKABLE WATER

*A. Heyndrickx*

I. Introduction . . . . .	273
II. Admission Procedure for a Formula. . . . .	274
III. Discussion and Justification of the Chemical Analytical Examination . . . . .	276
IV. General Review of the Testing Methods Applied to the Extraction and Stagnation Liquids . . . . .	283
V. Conclusion . . . . .	290
References . . . . .	291

## SOME MICROCRYSTAL TESTS FOR DRUGS

*Joseph E. Koles*

I. Introduction . . . . .	293
II. Apparatus . . . . .	294
III. Reagents . . . . .	295
IV. Techniques . . . . .	298

V. Sample Preparation . . . . . 299  
VI. Remarks Concerning the Tables . . . . . 300  
References . . . . . 366

**ADVANCES IN POLAROGRAPHY AS APPLIED TO  
TOXICOLOGICAL ANALYSIS**

*Milton Feldstein*

I. Introduction . . . . . 369  
II. Oscillographic Polarography . . . . . 370  
III. General Techniques for Alternating Current Polarography 373  
IV. Application to Toxicological Analysis . . . . . 375  
References . . . . . 379  
Reviews . . . . . 380

**SUBJECT INDEX . . . . . 381**
