		Page
1.	Keynote address: Biological Researches in Conservation of Cultural Property Hideo Arai	1
Oral Session		
2.	Study on Health Hazard due to Methyl Bromide Among Librarians V. Attanatho, S. Ratanamaneechat and S. Kritalugsana	12
3.	Studies on Conservation of Chinese Ink Xie Yulin	17
4.	Proposed Program for Protection of Cultural Properties from Biodeterioration Charunee Vongkaluang	24
5.	Hair Perforation Leading to Its Deterioration by Some <b>Keratinophilic</b> Fungi of Indian Museums Neeta Nigam	33
6.	Possibility of Mould Growth in a Sealed Package in Transit Kenzo Toishi	37
7.	Microscopical Study of Fungal Growth on Paper and Textiles Chiraporn Aranyanak	42
8.	Use of Homoeopathic Drugs as <b>Antifungal</b> Agent for the Protection of Books and Paper Material K.L. Garg	56
9.	Fungal Deterioration of Mural Painting in the Royal Temple Poonpilai Suwanarit, Chulee Chaisrisook and Chiraporn Aranyanak	66
10.	Control of Algal Growth on Monuments : Evaluation of Some Biocides in vitro A.K. Mishra, Kamal K. Jain and E. Banerjee	84
11.	Biodeterioration Problem of the Kalasan Temple Yogyakarta, Indonesia Hubertus Sadirin	90
12.	Service Life of a Protected Old Wooden Building in Norway - a Case Study Johan Mattsson	97
13.	Investigation of <b>Bacterial</b> and Fungal Attack in the PEG Treatment of ,Excavated Wood Rika Kigawa	102
14.	Detection Methods of Biological Damages in Wooden Cultural Property: A Review Achim Unger and Wibke Unger	111

15.	Inhibition of Biodeterioration of the Excavated Waterlogged Wood Using <b>Cationic</b> Surfactants Sakie Yoshimura and Mari Omura	117
16.	Application of <b>Karanja</b> Seeds ( <i>Pongamia glabra</i> vent) for the Control of Museum Insects Fauzia Shaheen	121
17.	Biodeterioration of Wool : Efficacy of Some Fungicides in Controlling the Deterioration S.C. Agrawal	129
18.	A New Method in the Controlling of Pigeon Fertility by Using an Antifertility Plant ( <i>Pueraria mirifica</i> ) Yuthana Smitasiri	135
19.	Effect of Some Medicinal Plants and Spices on Growth of Fungi <b>Sacngmance Chingduang</b> , <b>Prisnar Siriacha</b> and Michihiko Saito	143
20.	Management of the American Cockroach, <i>Periplaneta americana</i> L. ( <b>Blattidae</b> : Dictyoptera) with Plant Seed Oils K.C.Devaraj Urs	149
21.	Microbial Communities on Stone: Detection, Distribution and Activity Eric May	154
22.	Biodeterioration Aspects of the Probota Monastery in Romania and Possibilities for Its Restoration Atanasie Popescu, Hideo Arai and Toyohiko Minatoya	163
23.	Disinfection of Paper Using Gamma Rays, Electron Beams and Microwaves <b>Françoise Flieder</b> , <b>Malalanirina Rakotonirainy</b> , <b>Martine Leroy</b> and <b>Fabien Fohrer</b>	174
24.	A Simple Method for Temporary Conservation of Art Objects: Effect of Air Flow for Preventing Fungal Growth Kurara Sakamoto, <b>Namiko Kurozumi</b> , and <b>Toshiko Kenjo</b>	183
25.	Insecticides : Optimising their Performance and Targeting their Use in Museums D. B. Pinniger and R. E. Child	190
26.	The Effect of Thermal Methods of Pest Control on Museum Objects Thomas J.K. <b>Strang</b>	199
27.	Non Toxic Methods for Pest Control in Museums Vinod Daniel and Gordon Hanlon	213
28.	Biodeterioration of Cave Paintings Due to Bat 's Excrement R.K. Sharma, Vimal K. Saxena and Kalpana Saxena	222
29.	On the Occurrence of Alkalitolerant and <b>Alkaliphilic</b> Microorganisms on Wall Paintings and their Interaction in Restoration/Consolidation K. Petersen, Y.Yun and W.E. <b>Krumbein</b>	231

30.	Studies on Aged Starch Paste for the Traditional Mounting of' <b>Hanging</b> Scrolls Toshiko Kenjo, Hideo Arai and All Staffs of Restoration Section, Archives Division	240
31.	A Microbiological Study in Topkapi Palace Library (Istanbul) Ayhan Yücel and A.Serda Kantarcioglu	246
32.	Determination of Location of Stains in Fungal Spots and Enzymatic Removal of Pigmented Hyphae in Paper Mary-Lou Florian and Nancy Purinton	255
Poster Session		
33.	Preliminary Investigations on Airborne Microorganisms in Indoor Environment of Artistic Interest Giancarlo Ranalli, <b>Ranalli</b> Coppola and Claudia Sorlini	267
34.	Some Biodeteriorating Components in the Air of Central India and their Impact on Cultural Property Ashok K. Jain	272
35.	Biodeterioration of Museum Objects and Paintings R.P. <b>Thakre</b> and Y.Y. <b>Barve</b>	277
36.	Biodeterioration of Cultural Property on Tropical Countries: Gaps in Our Knowledge and Need for Further Research <b>S.M.Nair</b>	283
37.	Biodeterioration of Museum Objects and their Care and Control Measures in the Government Museum, Mardras (India) V. Jeyaraj	291
38.	Biodeterioration of Feathers by Keratinomycetes Isolated from A Museum of Spain R.K.S. Kushwaha	298
39.	Evaluation of Role of Soil Fungi in Biodeterioration of Leather <b>Ameeta</b> Srivastava and J.N. <b>Shrivastava</b>	303
40.	Fungi in Deterioration of Museum Objects K.G. <b>Mukerji</b> , K.L. Garg and A.K. <b>Mishra</b>	307
41.	A Study of Microbial Deterioration of Old Arts in the Monuments of Archaeological Significance Around Agra, India K.D. Sharma	318
42.	Investigations on Red Stain Alterations Present on the Marbles of Various Artistic Stoneworks Elisabetta Zanardini,,Silvia <b>Bruni</b> , Francesco Cariatì and Claudia Sorlini	326
43.	Lichens on the Monuments of the Southern Part of Ukraine Alexander Ye. <b>Khodosovtsev</b>	335
44.	Diversities of Plants on the Brick Monuments <b>Aksorn</b> Sripleng	341

45.	A Study on Removal of Algae and Lichens on Sandstone, <b>Panomwan</b> Sanctuary Chalit <b>Singhasiri</b> , Thitima Wangteeraprasert and Prateep <b>Kongsanit</b>	353
46.	The Potential of Wax Utilization for Wood Protection <b>Sutathip</b> Promachotikool	359
47.	Discolouration of Rubberwood by Blue Stain Surang <b>Thienhirun</b>	365
48.	Isolation of Molds from Ton Gwen Wooden Temple Pharuhus Luksamanapha, Uraporn Sardsud and Morakot Sukchotiratana	369
49.	Use of Traditional Thai Herbs for Insect Control Somtawin Nilvilai and Sirichai <b>Wangchareontrakul</b>	375
50.	Prevention of Cultural Heritage in Wood and Leather by Volatile Constituents of Higher Plants V.N. <b>Pandey</b> and A.K. <b>Srivastava</b>	381
51.	The Freezing Method for Eradication of Museum Pest <b>Insect/The</b> Safe Method for Both of the Human Body and the Artifacts - the Present State of Freezing Method in Western Countries Hiromi Tanimura and Seiji <b>Yamaguchi</b>	387
52.	Sublethal Doses of Insecticide and Its Effect on the Morphology of the Insect Fauzia Shaheen	399
53.	Laboratory Evaluation of Soil Termiticides Against Subterranean Termite: <b>Coptotermes gestroi</b> Wasmann Yupaporn Sornnuwat	405
54.	Studies on the Bioecology of an Isopteran Insect Causing Biodeterioration of Cultural Property Binoy <b>Bhattacharyya</b> , Jaya <b>Adhikari</b> and Parimalendu <b>Halдар</b>	413
55.	On the Preservation and Protection of Insect Specimens Against Biodeterioration Waree Hongsaprug	418
56.	The Entomodetenoration of Zoological Specimen (Dry Stuffed Anteater) Caused by the Larvae of <b>Anthrenus vorax (Waterh)</b> in Central Museum <b>Indore</b> (MP) India and their Curative Assessment D.K. Mathur	423
57.	Powderpost Beetles Paiwan Lek-U-Tai	432
58.	Microbial Deterioration of Wall Paintings A.K. Mishra and K.L. Garg	436
59.	Removal of Stains Caused by Fungi <b>from</b> the Asian Paintings on Silk Supports Masako Koyano, Takeo <b>Kadokura</b> Mary A. Becker and Yoshiko Magoshi	446

60.	On the Possibility of Airborne Fungi in the Biodeterioration of Buddhist Paintings in Ajanta Caves. Jayashree Deshpande and L.V. Gangawane	455
61.	Identification of Micro-organisms Destroying the Paintings in the <b>Tivanka</b> Pilimage Nanda <b>Wickramasinghe</b> and T.R. Prematileke	458
62.	Fungal Deterioration of Paper in The National Libraries and of Wooden Objects in The National Museums, Bangkok. Thailand <b>Chulee</b> Chaisrisook, <b>Poonpilai</b> Suwannarit and <b>Chiraporn Aranyanak</b>	461
63.	Fungal Deterioration of Books in Libraries Saengmanee Chingduang, Leka Manoch, Sanchai Tantayaporn, <b>Charunee Vongkaluang</b> and Prisar Siriacha	472
64.	Biodeterioration of Paper Nimfa <b>Rubias-Maravilla</b>	481
65.	Morphological Changes Induced, During the <b>Biodeterioration</b> of Wool, by Soil Borne Fungus <b>V.K.Ghawana</b> and <b>J.N.Shrivastava</b>	487
66.	Role of Microorganisms on the Deterioration of Woolen Carpet <b>Poonpilai</b> Suwanarit	493
