

Table of Contents

| | | |
|----------|---|-----------|
| 1 | Introduction | 1 |
| | References..... | 12 |
| 2 | Nanotechnology | 13 |
| | Nanoscience/Nanotechnology | 13 |
| | Nanofabrication/Nanoassembly | 19 |
| | Atomic Bit Processing..... | 19 |
| | Nanomaterials | 21 |
| | Synthesis: Metals/Intermetallics..... | 26 |
| | Sol-Gel Methods | 27 |
| | Compaction..... | 28 |
| | Silicon-Based Nanostructures | 29 |
| | Hybrid Semiconductors — Molecular Nanoelectronics | 31 |
| | Hybrid Circuits | 31 |
| | Nanophase Materials | 33 |
| | Producing Nanophase Particles | 33 |
| | Grain Boundaries/Size | 35 |
| | Nanostructured Oxides..... | 35 |
| | Nanostructured Nitrides and Carbonitrides..... | 37 |
| | Nanocomposites..... | 37 |
| | Background..... | 37 |
| | Some Typical Material Types and Processing Methods..... | 39 |
| | Modeling..... | 46 |
| | Polymer Nanocomposites..... | 47 |
| | Properties of PNCs..... | 50 |
| | Some Applications of Nanotechnology..... | 51 |
| | Films/Coatings | 51 |
| | Nanoelectronics..... | 55 |
| | New Bone Materials..... | 57 |
| | Shoes | 57 |
| | Biosensors/Computational Optoelectronics | 58 |
| | Molecular Electronics..... | 58 |
| | Inorganic Nanowires..... | 58 |
| | Lubricants | 58 |
| | Polyesters..... | 59 |
| | Cellulose Materials | 60 |

| | |
|---------------------------------------|----|
| Automotive..... | 60 |
| Protection of Food Supply | 61 |
| Optics..... | 61 |
| Building Blocks (Carbon Tubules)..... | 61 |
| Motors..... | 62 |
| Switches..... | 63 |
| Rules and Measuring Devices | 63 |
| Piezoceramics | 64 |
| Clothing..... | 65 |
| Clusters..... | 66 |
| Cosmetics | 66 |
| Nanowire Arrays | 66 |
| Nanobatteries | 67 |
| Future and Potential..... | 68 |
| Challenges..... | 68 |
| Self-Assembly..... | 69 |
| Next Decade | 70 |
| References..... | 71 |
| Bibliography | 75 |

| | |
|---|-----------|
| 3 Carbon-Carbon Composites | 77 |
| Introduction | 77 |
| Graphite and Carbon-Carbon Composites..... | 78 |
| Carbon Fiber and Matrix Materials..... | 82 |
| Carbon Fibers | 82 |
| Matrix Materials..... | 87 |
| Thermosetting Resins..... | 88 |
| Tar Pitch Resins..... | 88 |
| Carbon Fiber Structure | 89 |
| Rayon-Based Carbon Fibers..... | 90 |
| Pan-Based Carbon Fibers | 93 |
| Pitch-Derived Carbon Fibers..... | 94 |
| Fiber Structure and Architecture..... | 96 |
| Weaving..... | 97 |
| Multidirectional Preforms | 99 |
| Braiding..... | 101 |
| Matrix Precursors..... | 104 |
| C/C Significant Properties | 113 |
| Mechanical Properties..... | 113 |
| High-Temperature Mechanical Properties..... | 116 |
| Fatigue Properties..... | 116 |
| Fracture Toughness | 117 |

| | |
|---|------------|
| Thermal Properties..... | 118 |
| Thermal Conductivity at High Temperatures..... | 120 |
| Thermal Expansion..... | 120 |
| Processing Effects on Mechanical Properties..... | 120 |
| Oxidation Protection..... | 122 |
| Low-Temperature Protection (Up to 1000°C)..... | 124 |
| Protection up to 1800°C..... | 125 |
| Chemical Vapor Deposition..... | 126 |
| Chemical Vapor Infiltration..... | 127 |
| Chemical Vapor Reaction..... | 127 |
| Protection Beyond 1800°C..... | 128 |
| NDE of Coatings..... | 131 |
| Fabrication Processes/Techniques..... | 132 |
| Mechanical Fastening..... | 133 |
| Bushings..... | 133 |
| Tolerances..... | 133 |
| Locking Fasteners..... | 134 |
| Brazing..... | 134 |
| High-Energy Electron Beam (HEEB)..... | 139 |
| Applications..... | 141 |
| Brakes and Clutches..... | 142 |
| Pistons..... | 150 |
| Rocket Motors..... | 152 |
| Heat Shields (Thermal Protection Systems)..... | 154 |
| Aero-Engine Components..... | 155 |
| Biomedical Devices..... | 156 |
| Industrial and Miscellaneous Applications..... | 157 |
| Reflective Panels..... | 157 |
| Ion-Accelerator Grids..... | 158 |
| Glass Making..... | 160 |
| High-Temperature Mechanical Fasteners..... | 160 |
| Molds for Forming Superplastic Metals..... | 161 |
| Hot-Press Dies..... | 161 |
| Hot Gas Ducts..... | 162 |
| Furnace Heating Elements and Charging Stages..... | 162 |
| Summary..... | 165 |
| References..... | 166 |
| Bibliography..... | 171 |
| 4 Shape Memory Alloys/Effect..... | 175 |
| Introduction..... | 175 |
| One-Way Shape Memory Effect..... | 176 |

| | |
|---|-----|
| Two-Way Shape Memory Effect | 178 |
| How It Works | 179 |
| Superelastic Effect | 180 |
