

# Contents

<b>1.</b>	<b>Identification of unfamiliar designations</b>	<b>1</b>
1.1	Letter designations	2
1.2	Digit designations	3
1.3	Digit-letter designations	4
1.4	Letter-digit designations	4
1.5	Designations with letter-digit-letter or digit-letter-digit combinations	6
1.6	Alphanumerical designations with Chemical Symbols	7
<b>2.</b>	<b>Quick comparison of alloy designation in international use (Designations related to the ISO and AA Registration Records designations)</b>	<b>9</b>
2.1	Related alphanumerical designations for wrought aluminium and aluminium alloys	10
2.2	Related code and digital designations for wrought aluminium and aluminium alloys	14
2.3	Related alphanumerical designations on aluminium casting alloys	17
2.4	Related code and digital designations of aluminium casting alloys	18
2.5	Related designations of welding wire and rod	19
<b>3.</b>	<b>Trade names and designations</b>	<b>21</b>
3.1	Trade names	23
3.2	Letter-digit trade designations	29
3.3	Users of trade names and trade designations	30
<b>4.</b>	<b>Related standard and standard-like designations used in various countries</b>	<b>33</b>
4.1	Alphanumerical designations (review of standards)	34
4.2	Code and digit designations (review of standards)	37
4.3	Designations and compositions of Primary Aluminium Ingots	42
	A For common use	42
	B Ingots of electrical conductor aluminium	45
4.4	Related designations and compositions of wrought aluminium and aluminium alloys	46
	A Wrought aluminium (minimum purity 99.00 %)	46
	B AlCu and AlCuMg alloys in order of increasing Cu content	48
	C AlMn, AlMnMg and AlMnSi alloys in order of increasing Mn content	50
	D AlSi alloys in order of increasing Si content	52
	E AlMg and AlMgMn alloys in order of increasing Mg content	54
	F AlMgSi and AlSiMg alloys, approximately in order of increasing Mg content	58
	G Related designations of AlZn, AlZnMg and ZnMgCu alloys, in order of increasing Zn content	60

	H Designations and compositions of 8xxx series alloy (For bearing alloys see also table 5.3)	64
4.5	Related designations and compositions of aluminium casting alloys	66
	A Alloy Class AlCu (Si, Mg, Ni, Zn)	66
	B Alloy Class AlSi (Cu, Mg, Zn, Ni)	68
	C Alloy Class AlMg (Si, Fe, Mn)	72
	D Alloy Class AlZn (Mg, Si)	74
	E Alloy Class AlSn (Si, Cu, Ni)	74
	F Alloy Class AlNi (Mn)	74
5.	<b>Related designations and compositions of aluminium products for special applications (Standard and trade designations)</b>	77
5.1	Low-alloy Electrical Conductor Alloys	78
5.2	Aluminium alloys for automotive applications	79
5.3	Designations and compositions of bearing alloys	81
5.4	Powder metallurgy (PM) alloys	83
	A Powder mixtures for massive parts	83
	B Aluminium-based powder mixture for porous bearings	84
	C Aluminium-based dispersion-hardened PM alloys	84
	D Al-B <sub>4</sub> C alloys for nuclear applications	84
	E Splat-quenched aluminium alloys	84
6.	<b>International standards and standard-like designations and compositions</b>	85
6.1	ISO designations and compositions	86
	A Wrought aluminium and aluminium alloys according to ISO R 209 and ISO Standards	86
	B Designations and compositions of casting alloys in cast parts according to ISO 3522	87
6.2	International Registration Record for wrought aluminium and aluminium alloys	88
	A Aluminium, unalloyed (For explanation see also 4.4;' compositions registered after the last edition: see table USA 1)	88
	B Wrought aluminium alloys	89
	C Inactive alloys (former designations, not used at the time)	95
6.3	AECMA designations and compositions for wrought and cast aluminium alloys	96
	A Wrought alloys	96
	B Casting alloys	96
7.	<b>National standards and specifications for aluminium and aluminium alloys</b>	97
7.1	<b>Standard designations and compositions in Austria (A)</b>	99
	Tables:	
	A 1 Designations and compositions of wrought aluminium and aluminium alloys according to ÖNORM M3426 and ÖNORM M3430	99

	A 2	Designations and compositions of aluminium casting alloys according to ÖNORM M2429	100
	A 3	Designations and compositions of welding wire and rod according to ÖNORM M7825	101
<b>7.2</b>		<b>Standard and Aluminium Development Council (ADC) designations and compositions in Australia (AUS)</b>	<b>102</b>
		Tables:	
	AUS 1	Designations and compositions for wrought aluminium and aluminium alloys according to Aluminium Development Council (ADC)	102
	AUS 2	Designations and compositions of aluminium casting alloys according to Aluminium Development Council (ADC)	103
	AUS 3	Designations and compositions of casting alloys according to AS-H49	105
	AUS 4	Designations and compositions of wrought aluminium and aluminium alloys according to AS-H50 (obsolete, new designations according to ADC or International Registration Record)	106
	AUS 5	Related designations for aluminium casting alloys used in Australia	107
<b>7.3</b>		<b>Standard designations and compositions in Canada (CDN)</b>	<b>108</b>
		Tables:	
	CDN 1	Related designations (new/old and old/new) of wrought products according to CSA-HA/International Registration Record	108
	CDN 2	Designations and compositions of casting alloy ingots according to CSA.HA.3	109
	CDN 3	Designations and compositions of welding wire and rod according to CSA.HA.6 (obsolete; new CSA.HA.6 agrees with USA-ANSI/AWS A5.10; see table USA 3)	110
	CDN 4	Designations and compositions of rivet rod and wire according to CSA.HA.6	110
	CDN 5	Designations and compositions of CSA alloys (obsolete, not in the new CSA.HA.4,5,7)	110
<b>7.4</b>		<b>Standard designations and compositions in Switzerland (CH)</b>	<b>111</b>
		Tables:	
	CH 1	Designations and compositions of wrought products according to VSM 10905	111
	CH 1A	Designations and compositions of wrought products according to draft new standard SN 210900	112
	CH 2	Designations and compositions of aluminium alloy castings according to VSM 10895 (separate part for each alloy composition)	113

<b>7.5</b>	<b>Standard designations and compositions in Czechoslovakia (CS)</b>	114
	Tables:	
CS 1	Designations and compositions of wrought aluminium and aluminium alloys according to CSN	114
CS 2	Designations and compositions of casting alloy ingots and cast parts according to CSN	115
<b>7.6</b>	<b>Standard designations and compositions in the Federal Republic of Germany (D)</b>	116
	Tables:	
D 1	Designations and compositions of wrought aluminium according to DIN 1712, Teil 3	116
D 2	Designations and compositions of wrought aluminium alloys according to DIN 1725 Teil 1	116
D 3	Designations and compositions of welding wire and rod according to DIN 1732 Teil 1	118
D 4	Designations and compositions of casting alloys according to DIN 1725 Teil 2	119
D 5	Designations and compositions of casting alloys according to VDS (OEA) list, but not in DIN 172512	121
D 6	Designations and compositions of brazing filler metal according to DIN 8513, Teil 4	121
D 7	Designations and compositions of solders for aluminium according to DIN 1707, Group D	122
D 8	Related material designations for aluminium bolts	122
D 9	Related materials number ("Werkstoffnummer") and alphanumeric DIN designations	123
D 10	List of "Werkstoffleistungsblätter" (aerospace material, abbreviated "WL") according to "Werkstoffhandbuch der Deutschen Luftfahrt, Teil 1, 2. Band"	124
D 11	Related designations DIN – International Registration Record for wrought aluminium and aluminium alloys	125
<b>7.7</b>	<b>Standard designations and compositions in the German Dem. Republic (DDR)</b>	126
	Tables:	
DDR 1	Designations and compositions of wrought aluminium according to TGL 14712	126
DDR 2	Designations and compositions of wrought alloys according to TGL 14725	126
DDR 3	Designations and compositions of welding and brazing wire and rod according to TGL 14908	127
DDR 4	Designations and compositions of casting alloys according to TGL 6556 and TGL 4886	127

<b>7.8</b>	<b>Standard designations and compositions in Spain (E)</b>	<b>128</b>
	Tables:	
E 1	Designations and compositions of wrought aluminium and aluminium alloys according to UNE Standards	128
E 2	Designations and compositions of casting alloys according to UNE Standards	129
<b>7.9</b>	<b>Standard designations and compositions in France (F)</b>	<b>131</b>
	Tables:	
F 1	Alloys and forms according to NF (French Standards) and related new and old designations for wrought aluminium and aluminium alloys	131
F 2	Designations and compositionsof aluminium and aluminium alloys according to former NF A 50-411; 50-101; 50-481	132
F 3	Designations and compositions of welding wire and rod according to NF A 81-331	133
F 4	Designations and compositions of casting alloys according to NF A 57-702 and NF A 57-703	134
F 5	Designations of aluminium and aluminium alloys in the French aerospace standards AIR A 9048 and A 9050	135
<b>7.10</b>	<b>Standard designations and compositions in Great Britain (GB)</b>	<b>136</b>
	Tables:	
GB 1	Former BS designations related to International Registration Records designations	136
GB 2	BS-L and DTD designations related to International Registration Records designations	137
GB 3	Designations and compositions of remaining BS-L and DTD alloys	138
GB 4	Designations and compositions of welding wire and rod according to BS 2901: Part 4	138
GB 5	Designations and compostions of welding wire and rod according to draft new BS 2901: Part 4	139
GB 6	Designations and compositions of brazing filler metals	139
GB 7	Designations and compositions of alloysfor bright trim/reflector applications according to BS 430012,-13,-14	139
GB 8	Alloys and forms according to British Standards	139
GB 9	Designations and compositions of casting alloys according to BS 1490	141
GB 10	Designations and compositions of casting alloys according to BS-L and DTD	142
GB 11	Aluminium grades in Lloyds Register of Shipping	142
GB 12	Cancellationsand replacementsof DTDandBS-Lspecifications	143
<b>7.11</b>	<b>Standard designations and compositions in Hungary (H)</b>	<b>145</b>
	Tables:	
H 1	Designations and compositions of wrought aluminium according to MSZ 374711	145

H 2	Designations and compositions of wrought aluminium alloys according to MSZ 374711	146
H 3	Designations and compositions of welding wire and rod according to MSZ 4264	147
H 4	Designations and compositions of casting alloys in cast parts according to MSZ 3713	148
<b>7.12</b>	<b>Standard designations and compositions in Italy (I)</b>	<b>149</b>
	Tables:	
I 1	Designations and compositions of wrought aluminium alloys according to UNI	149
I 2	Designations and compositions of casting alloys according to UNI	150
I 3	Designations and compositions of welding wire and rod according to UNI 1817	151
I 4	Related alphanumerical, UNI number and International Registration Record (or AA casting alloy record) designations	152
<b>7.13</b>	<b>Standard designations and compositions in Japan (J)</b>	<b>153</b>
	Tables:	
J 1	Former code designations related to International Registration Record designations	153
J 2	New Japanese designations and compositions of wrought aluminium alloys, not identical with International Registration Record compositions (Explanation of the designation system see table 4.4)	153
J 3	Designations and compositions of welding wire and rod according to JIS Z 3232	154
J 4	Designations and compositions of brazing filler metals according to JIS 3263	154
J 5	Designations and compositions of casting alloy ingots according to JIS H 2117, H 2118, H 2211, H 2212	155
J 6	Designations and compositions of casting alloys	156
J 7	Designations and compositions of wrought electrical conductor alloys according to JIS H 4195	156
J 8	Related trade designations of wrought alloys	156
<b>7.14</b>	<b>Standard designations and compositions in Norway (N)</b>	<b>157</b>
	Tables:	
N 1	Designations and compositions of wrought aluminium and aluminium alloys	157
N 2	Designations and compositions of casting alloys	157
<b>7.15</b>	<b>Standard designations and compositions in Poland (PL)</b>	<b>158</b>
	Tables:	
PL 1	Designations and compositions of wrought aluminium and alloys according to PN H-88026	158
PL 2	Designations and compositions of casting alloy ingots according to PN H-88027	158

PL 3	Related alphanumerical and code designations in PN standards	159
<b>7.16</b>	<b>Standard designations and compositions in Sweden (S)</b>	<b>160</b>
	Tables:	
S 1	Designations and compositions of wrought aluminium and aluminium alloys according to SIS standards	160
S 2	Designations and compositions of casting alloys according to SIS standards	160
S 3	Designations and compositions of welding wire and rod according to SIS standards (MNC 42)	161
<b>7.17</b>	<b>Standard designations and compositions in the USSR (SU)</b>	<b>161</b>
SU 1	Designations and compositions of wrought aluminium according to GOST 11 069	161
SU 2	Designations and compositions of wrought aluminium and aluminium alloys according to GOST 4784	162
SU 3	Designations and compositions of welding wire and rod according to GOST 7871	164
SU 4	Designations and compositions of casting alloys	165
SU 5	Related alphanumerical and digit designations for wrought alloys according to GOST 4784	168
SU 6	Related former and current designations for casting alloys according to GOST 1583	168
<b>7.18</b>	<b>Standard designations and compositions in Turkey (TR)</b>	<b>169</b>
	Tables:	
TR 1	Designations and compositions of wrought aluminium and aluminium alloys according to TS 412	169
TR 2	Designations and compositions of casting alloys according to TS 410	169
<b>7.19</b>	<b>Standard and specification designations and compositions in the United States of America (USA)</b>	<b>170</b>
	Tables:	
USA 1	Designations and compositions of wrought aluminium and aluminum alloys	170
USA 2	Registered Alclad, Brazing sheet and Reflector sheet designations and components	171
USA 3	Designations and compositions of welding wire and rod according to ANSIIAWS A5.10-80 and ANSIIAWS A5.3-80	173
USA 4	Designations and compositions of casting alloys	174
USA 5	Related old and new designations for casting alloys	182
USA 6	Related designations for aluminium brazing filler metal	182
USA 7	Federal Specifications for aluminium products	183
USA 8	Military Specifications for aluminium products	184
USA 9	ASTM- and ANSI-Specifications for aluminium products	185
USA 10	AMS-Specifications for aluminium products	187

USA 11 ASME-Specifications for aluminium products	188
USA 12 Related ASTM and AA designations for wrought and cast aluminium products	189
USA 13 Related SAE and AA designations for wrought and cast aluminium products	190
<b>7.20 Standard designations and compositions in Yugoslavia (YU)</b>	191
Tables:	191
YU 1 Designations and compositions of wrought aluminium and aluminium alloys according to JUSC.C2.100	191
YU 2 Designations and compositions of casting alloys according to JUSC.CS.300	192
<b>7.21 Standard designations and compositions in the Republic of South Africa (ZA)</b>	193
Tables:	
ZA 1 Designations and compositions of wrought aluminium and aluminium alloys according to SABS 712	193
ZA 2 Designations and compositions of primary aluminium and casting alloy ingots according to SABS 989	194
ZA 3 Related alphanumerical and SABS Code No. designations	195
<b>8 Related trade and standard designations in various countries</b>	197
8.1 Related trade and standard designations in Austria	198
8.2 Related trade and standard designations for wrought and casting alloys in Canada	199
8.3 Alcan designations and compositions	200
A Wrought aluminium and aluminium alloys	200
B Casting alloys	202
C Other Alcan designations and compositions of wrought and cast products	203
8.4 Related trade designations for wrought products in Switzerland	205
8.5 Related trade and standard designations in the Federal Republic of Germany	207
A Wrought aluminium and aluminium alloys	207
B Casting alloys	210
C Special products produced by various companies	211
D Related trade designations for PM aluminium alloys	212
8.6 Related trade and standard designations in Spain	212
8.7 Related trade and standard designations in France	213
A Wrought aluminium alloys	213
B Compositions of the non standardized alloys	214
C Casting alloys	215
8.8 Related trade and standard designations in Great Britain	216
A Wrought aluminium and aluminium alloys	216

	B Casting alloys	217
	C Further trade designations for casting alloys	217
8.9	Related trade and standard designations in Italy	218
	A Wrought aluminium and aluminium alloys	218
	B Casting alloys	219
8.10	Related trade and standard designations in Scandinavia (Denmark, Finland, Norway, Sweden)	220
	A Wrought aluminium and aluminium alloys	220
	B Casting alloys	221
8.11	Related trade designations for aluminium casting alloys in the USA	221
<b>9.</b>	<b>Temper designations</b>	<b>223</b>
9.1	Temper designations for wrought aluminium and aluminium alloys	224
	A Temper achieved by fabricating, annealing cold working, and cold working with subsequent partial annealing or stabilizing	224
	B Heat treatment temper designations	226
9.2	Temper designations for aluminium casting alloys	228
<b>10.</b>	<b>International and national standard organizations and technical institutions</b>	<b>229</b>
