The *Journal of AOAC INTERNATIONAL* publishes refereed papers and reviews in the fields of chemical, biochemistry for the purpose of showcasing the most precise, accurate and sensitive methods for analysis of contaminants, cosmetics, drugs, toxins, hazardous substances, pesticides, feeds, fertilizers and the environment. The scope of the *Journal* includes unpublished original research describing new analytical methods, techniques to sampling, both in the field and the laboratory; better methods of preparing samples for analysis; collateral performance of a given method; statistical techniques for evaluating data. The *Journal* will also publish other audience, e.g., technical communications; cautionary notes; comments on techniques, apparatus, and re...
