22A Instructions to Authors
23A For Your Information
31A Cumulative Author Index

AGRICULTURAL MATERIALS

197 Reversed-Phase Liquid Chromatographic Determination of Riboflavin in Feeds
   Nancy L. Britton, Ken L. Riter, Robert L. Smallidge, and Joseph Hillebrandt

DIETARY SUPPLEMENTS

202 Determination of Phenolic Compounds in Dietary Supplements and Tea Blends Containing Echinacea by Liquid Chromatography with Coulometric Electrochemical Detection
   Wenhong Luo, Catherina Y.W. Ang, Theresa A. Gehring, Thomas M. Heinze, Lawrence J. Lin, and Antonia Mattia

DRUGS, COSMETICS, FORENSIC SCIENCES

209 Spectrofluorimetric and Spectrophotometric Determination of Gliclazide in Pharmaceuticals by Derivatization with 4-Chloro-7-nitrobenzo-2-oxa-1,3-diazole
   Nahed El-Enany

215 Simultaneous Determination of Eleven Dyes and Their Aluminum Lakes in Drugs
   Fusako Ishikawa, Sutemi Shigeoka, Machiko Nagashima, Misako Takahashi, and Hisashi Kamimura

222 Concentration of Sodium Ion as the Determining Factor for the Association of Dansyl Amino Acids with the Teicoplanin Molecule in Reversed-Phase Liquid Chromatography
   Lhassane Ismaili, Tong Than Truong, Claire André, Mireille Thomassin, Jean-Louis Mozer, Jean-François Robert, Alain Xicluna, Bernard Refouvelet, Joelle Millet, Laurence Nicod, and Yves-Claude Guillaume

229 Determination of Fleroxacin in Pure and Tablet Forms by Liquid Chromatography and Derivative UV-Spectrophotometry
   Dorota Kowalczyk and Hanna Hopkala
Simultaneous Determination of Different Antibiotic Residues in Bovine and Porcine Kidneys by Solid-Phase Fluorescence Immunoassay

Lieve Okerman, Katia De Wasch, Jan Van Hoof, and Walter Smedts

Simultaneous Determination of Dapsone and Pyrimethamine by Derivative Spectrophotometry in Pharmaceutical Formulations

M. Inés Toral, Andrés Tassara, César Soto, and Pablo Richter

Determination of Semivolatile Organic Compounds in Environmental Samples by Gas Chromatography/Mass Spectrometry after Extraction by Cyclic Steam Distillation

Kuniaki Kawata, Akiko Tanabe, Hiroaki Yagoh, Tsuyoshi Ibaraki, Akio Yasuhara, and Takayuki Shibamoto

Enumeration of Total Aerobic Microorganisms in Foods by SimPlate® Total Plate Count–Color Indicator Methods and Conventional Culture Methods: Collaborative Study

Philip T. Feldsine, Stephanie C. Leung, Andrew H. Lienau, Linda A. Mui, and David E. Townsend

Detection of Salmonella in Fresh Cheese, Poultry Products, and Dried Egg Products by the ISO 6579 Salmonella Culture Procedure and the AOAC Official Method: Collaborative Study

Philip T. Feldsine, Andrew H. Lienau, Stephanie C. Leung, Linda A. Mui, Florence Humbert, Marylène Bohnert, Kirsten Mooijman, Saskia Schulten, Paul in ’t Veld, Patricia Rollier, Renata Leuschner, and Katherine Capps

Enumeration of Total Yeasts and Molds in Foods by the SimPlate® Yeast and Mold–Color Indicator Method and Conventional Culture Methods: Collaborative Study

Philip T. Feldsine, Andrew H. Lienau, Stephanie C. Leung, and Linda A. Mui

Detection of Botulinal Neurotoxins A, B, E, and F by Amplified Enzyme-Linked Immunosorbent Assay: Collaborative Study

Joseph L. Ferreira, Susan Maslanka, Eric Johnson, and Mike Goodnough

First Proficiency Testing To Evaluate the Ability of European Union National Reference Laboratories To Detect Staphylococcal Enterotoxins in Milk Products

Jacques-Antoine Hennekinne, Martine Gohier, Tiphaine Maire, Christiane Lapeyre, Bertrand Lombard, and Sylviane Dragacci

Modification of Enrichment Protocols for TECRA Listeria Visual Immunoassay Method 995.22: Collaborative Study

Denise Hughes, Angela Dailianis, Louise Duncan, Julie Briggs, Deborah A. McKintyre, and Karen Silbernagel

Sensitivity and Specificity of the Sanita-kun Aerobic Count: Internal Validation and Independent Laboratory Study

Hiroshi Morita, Masashi Ushiyama, Shigeyuki Aoyama, and Mihoko Iwasaki

Determination of Total Vitamin C in Fruit Juices and Related Products by Liquid Chromatography: Interlaboratory Study

Allan R. Brause, David C. Woollard, and Harvey E. Indyk

**MICROBIOLOGICAL METHODS**

| 407  | Alternative AOAC Sporicidal Test Carrier for Evaluating Peracetic Acid-Based Sterilants (Modification of AOAC Official Method 966.04) | Gerald McDonnell                             |

**RESIDUES AND TRACE ELEMENTS**

| 412  | Fast and Easy Multiresidue Method Employing Acetonitrile Extraction/Partitioning and “Dispersive Solid-Phase Extraction” for the Determination of Pesticide Residues in Produce | Michelangelo Anastassiades, Steven J. Lehotay, Darinka Štajnbaher, and Frank J. Schenck |
| 432  | Comparative Tests To Improve the Gas Chromatographic Analysis of Chlorobornanes in Fish Samples | Jacob de Boer, Pim E.G. Leonards, Jarle Klungsøyr, Brendan McHugh, Eugene Nixon, Evin McGovern, and Gerhard G. Rimkus |
| 439  | Determination of Metals in Composite Diet Samples by Inductively Coupled Plasma-Mass Spectrometry | Lisa Jo Melnyk, Jeffrey N. Morgan, Reshan Fernando, Edo D. Pellizzari, and Olujide Akinbo |
