

CONTENTS

1. Introduction to artificial intelligence	1
2. The fundamentals of LISP	22
3. Functions , conditionals and loops	51
4. Further list processing	78
5. Recursion	99
6. More advanced Uses of Functions	117
7. LISP programming and AI	128
Appendix One : standard LISP Functions	150
Appendix Two : Editing – the Acornsoft LISP editor	154
Index	159
