

**CONTENTS**

|  |     |
|--|-----|
| Chapter 1 Current Status of Computer graphics          | 1   |
| Chapter 2 Fast Algorithms                              | 57  |
| Chapter 3 Rendering Techniques                         | 105 |
| Chapter 4 Graphics Hardware                            | 143 |
| Chapter 5 Computational Geometry                       | 195 |
| Chapter 6 Ray Tracing                                  | 283 |
| Chapter 7 Generation Techniques                        | 345 |
| Chapter 8 Graphics interfaces, Languages and Databases | 391 |
| Chapter 9 Hierarchical Modeling                        | 441 |
| List of Technical Program Reviewers                    | 491 |
