

CONTENTS

Chapter 1 The use of abstraction in Program Design	1
Chapter 2 The Input Abstract Data Type	61
Chapter 3 Static Sequential Stacks and Queues	101
Chapter 4 Static Sequential Tables	143
Chapter 5 Sequential Character Strings	199
Chapter 6 Recursion	235
Chapter 7 Linear Linking: Stacks, Queues, and Deques	273
Chapter 8 Linear Linked Lists	335
Chapter 9 Hashing Algorithms	383
Chapter 10 Search Tree Tables	451
Appendix: Consolidated Specifications of Abstract Data Types and Index to Implementations	511
Glossary/Index	521
