CONTENTS

PART I TOOLS AND STANDARDS

1. Middleware platforms to Support Multimedia Applications 3
2. DAVIC and Multimedia Standards 37
3. Interactive Multimedia User Interfaces 59
4. Content-Based Video Browsing and Retrieval 83
5. Cross-Modal Retrieval and Applications 109
6. Automatic and Dynamic Video Manipulation 131
7. Detection and Recognition of Television Commercials 159
8. Authoring Techniques for Temporal Scenarios of Multimedia Documents 179
9. Generating Hypermedia Documents from Transcriptions of Television Programs using Parallel Text Alignment 201
10. Quality of Service in Networked Multimedia Systems 217
11. An Experimental Study of Multimedia Applications over International ATM Networks 253
12. A Framework for Building Adaptive Continuous Media Applications Using Service Proxies 261

PART II SYSTEMS 283

13. Multimedia Database Management Systems 285
14. Multimedia Information Systems 311
15. Distributed Multimedia Systems 339
16. Visual Information Systems 361
17. Interactive Systems for Learning and Teaching 375
18. Automatic Digital Video Production Concepts 399
19. Multimedia Messaging Systems 419
20. Multimedia News Systems 437
21. Multimedia Publishing Systems 457
22. Conferencing and Collaborative Computing 483

23. Video-On-Demand Systems 511

24. QoS Guarantees for Multimedia Traffic in Wireless Systems 531

PART III APPLICATIONS 549

25. Multimedia Education 551

26. Interactive Movies 581

27. Multimedia and Virtual Organizations 593

28. Multimedia Applications on the Internet 609

29. Multimedia Document Systems from Authoring Perspective 635

30. Multimedia Document Systems – Asian Perspective 671

31. Delivering Interactive Services to the Home Using Digital Video Broadcast Infrastructure 693

32. Virtual Reality Systems for Browsing Multimedia 709

33. Multimedia in Control and Automation Applications 733

34. Multimedia Archiving, Logging, and Retrieval 763

35. Hypermedia Systems and Applications 787

36. Java and Related Applications 807

37. Multimedia Broadcasting on the Internet 825

38. Mobile Multimedia : Concepts, Services, and Systems 845
