

	PAGE
LIST OF PERIODICALS READ	1
SECTIONS :—	
I. MEAT—	
(a) Influence of Ante-mortem Conditions on Storage Properties	5
(b) Cold-Storage	5
(c) Chemical Antiseptics	9
(d) Canning (and Glass-Packing)	10
(e) By-Products	11
(f) Spoilage and Putrefaction	11
(g) Biochemistry	13
(y) Methods of Analysis	23
(z) Miscellaneous	27
II. PIG-FLESH—	
(a) Influence of Ante-mortem Conditions on Storage Properties	29
(b) Cold-Storage	29
(c) Drying, Curing, Salting, Smoking, etc.	30
(d) Canning (and Glass-Packing)	32
(e) By-Products	32
(f) Spoilage and Putrefaction	32
(g) Biochemistry	33
(y) Methods of Analysis	33
(z) Miscellaneous	34
III. POULTRY AND GAME—	
(a) Influence of Ante-mortem Conditions on Storage Properties	35
(b) Cold-Storage	35
(c) Chemical Antiseptics	36
(d) Canning (and Glass-Packing)	36
(e) By-Products	36
(f) Spoilage and Putrefaction	36
(g) Biochemistry	36
(y) Methods of Analysis	37
(z) Miscellaneous	37
IV. FISH—	
(a) Influence of Ante-mortem Conditions on Storage Properties	39
(b) Cold-Storage	39
(c) Drying, Curing, Salting, Smoking, etc.	44
(d) Canning (and Glass-Packing)	46
(e) By-Products	49
(f) Spoilage and Putrefaction	56
(g) Biochemistry	61
(y) Methods of Analysis	65
(z) Miscellaneous	67

SECTIONS:—

V. EGGS—		PAGE
(a)	Influence of Farm Conditions on Storage Properties	69
(b)	Cold-Storage	70
(c)	Chemical Preservation	73
(d)	Sealing	73
(e)	Dehydration	74
(f)	Spoilage and Putrefaction	74
(g)	Biochemistry	74
(h)	By-Products	80
(y)	Methods of Analysis	80
(z)	Miscellaneous	83
VI. DAIRY PRODUCE—		
(a)	Heat Treatment	85
(b)	Cold-Storage	91
(c)	Dehydration	97
(d)	Canning (and Glass-Packing)	99
(e)	By-Products	99
(f)	Spoilage and Putrefaction	101
(g)	Biochemistry	111
(h)	Cheese-Making	116
(i)	Butter-Making	124
(y)	Methods of Analysis	127
(z)	Miscellaneous	139
VII. FATS AND OILS—		
(a)	Influence of Pre-Storage Conditions on Storage Properties	141
(b)	Cold-Storage	141
(c)	Rendering, Extraction, Hardening, etc. Processes	141
(d)	Canning (and Glass-Packing)	144
(e)	By-Products	144
(f)	Spoilage and Putrefaction	144
(g)	Biochemistry	151
(y)	Methods of Analysis	155
(z)	Miscellaneous	162
VIII. FRUIT AND VEGETABLES—		
(a)	Influence of Horticulture on Storage Properties	163
(b)	Cold-Storage	164
(c)	Gas-Storage	180
(d)	Canning (and Glass-Packing)	184
(e)	Dehydration	190
(f)	Diseases of Storage	192
(g)	Physiological, Chemical and Physical Changes	207
(h)	Chemical Antiseptics	219
(i)	By-Products	223
(y)	Methods of Analysis	232
(z)	Miscellaneous	239
IX. GRAIN, CROPS AND SEEDS—		
(a)	Influence of Pre-Storage Factors on Storage Properties	241
(b)	Common Storage and Cold-Storage	241
(c)	Gas-Storage	246
(d)	Canning (and Glass-Packing)	246
(e)	Dehydration and Ensilage	247

SECTIONS:—

	PAGE
IX. GRAIN, CROPS AND SEEDS— <i>continued</i>	
(f) Diseases of Storage	253
(g) Physiological, Chemical and Physical Changes	259
(h) By-Products	266
(y) Methods of Analysis	266
(z) Miscellaneous	270
X. THEORY OF CANNING—	
(a) Sterilization	271
(b) Corrosion	273
(y) Methods of Analysis	276
(z) Miscellaneous	277
XI. THEORY OF FREEZING AND CHILLING	279
XII. BACTERIOLOGY—	
(a) General	283
(b) Special	288
XIII. MYCOLOGY—	
(a) General	291
(b) Special	294
XIV. ENGINEERING—	
(a) Temperature and its Control	297
(b) Humidity and its Control	301
(c) Gas Content and its Control	304
(d) Sea Transport Methods	304
(e) Rail and Road Transport Methods	307
(f) Insulation and Heat Leakage	310
(g) Refrigerating Installations on Land	315
(h) Refrigerating Machinery	316
(i) Air-Conditioning and Gas-Producing Plants	340
(z) Miscellaneous	341
XV. MISCELLANEOUS—	
(a) General	343
(b) Reports	346
(c) Books	347
(d) Patent Specifications	347
(y) Methods of Analysis	347
INDEX OF AUTHORS..	351
