

CONTENTS

| | |
|---|-----|
| 1. Polymer Recycling: An Overview | 2 |
| 2. Curbside Recycling Infrastructure: A Pragmatic Approach | 11 |
| 3. Polymer Recycling: Thermodynamics and Economics | 27 |
| 4. Automotive Recycling | 47 |
| 5. Polymer Recycling: Economic Realities | 62 |
| 6. Plastics Recycling: An Overview | 72 |
| 7. Recycling of Polypropylene | 80 |
| 8. Polystyrene Recycling: An Overview of the Industry in North America | 89 |
| 9. Progress in Poly (vinyl chloride) Recycling | 97 |
| 10. A Resin Producer's Perspective and Experiences in Polyethylene Recycling | 104 |
| 11. Morphology and Properties of Poly (ethylene terephthalate)-High-Density Polyethylene-Blends | 113 |
| 12. A Recovery Process for Spent Polyurethane-Based Propellants: Feasibility Studies | 139 |
| 13. Consideration of Poly (ethylene terephthalate) Recycling for Food Use | 152 |
| 14. A Review of Advanced Recycling Technology | 161 |
| 15. Advances in Plastics Recycling: Thermal Depolymerization of Thermoplastic Mixtures | 170 |
| 16. Spouted Bed Reactor for the Advanced Thermal Recycling of Mixed Plastic Waste | 183 |
| 17. Recycling of Rubber | 196 |
| 18. Rubber Recycling: Emerging Markets and New Technology | 202 |
| 19. Olefinic Thermoplastic Vulcanizates: Impact on Rubber Recycling | 221 |
| 20. Scrap Tire Recycling: regulatory and market Development Progress | 237 |
| 21. Chemical Methods of Devulcanizing Thermoset Rubber | 245 |
| 22. A Black Filler for Rubber from Tire Pyrolysis Char | 254 |
| 23. Cellulose and Paper Recycling: A Pragmatic View | 274 |
| 24. Paper Recycling and the Environment | 286 |
| 25. Recycled Paper: Raw Material Supply and Other Considerations | 296 |
| 26. Advances in Paper Fiber Recycling: Meeting the Challenge | 306 |
| 27. Chemistry of Unit Operations in Paper Deinking Mills | 323 |
| 28. Office-Paper Deinking: Environmental Scanning Electron Microscopy Studies of Interactions-Of Toner Inks and Deinking Agents | 342 |
| 29. Utilization of Recycled Agriculture-Based Fiber for Composites | 357 |
| 30. Recycling of Mixed Plastics Using Cellulosic Reinforcement | 367 |
| 31. Recycling of Polymers for Food Use: A Current Perspective | 380 |
| 32. Recycling of Polymers for Food-Contact Applications: Science, Policy, and Regulation | 389 |
| 33. Protocol To Verify Contaminant Removal from Postconsumer Poly (ethylene terephthalate) | 404 |
| 34. Assessing Reclamation Processes for Plastics Recycling | 418 |

| | |
|---|-----|
| 35. Residual Contaminants in Recycled Poly (ethylene terephthalate): Effects of Washing and – Drying | 435 |
| 36. Food Packaging Made from Recycled Polymers: Functional Barrier Considerations | 445 |
| 37. Analysis of Contaminants in Recycled Poly (ethylene terephthalate) by Thermal-Extraction- Gas Chromatography-Mass Spectroscopy | 458 |
| 38. Chemically Induced Delaminating for Recycling of Coated Aluminum Scrap | 472 |
| 39. Polymer Recycling Technology for Food-Use Technical Requirements To Meet Safety and- Quality Assurance | 488 |
| 40. Polymer Recycling Research in the New Decade | 502 |
