

CONTENTS

1. Summary of Engineering Plastics	1
2. Engineering Thermoplastics from a Commercial Development Viewpoint	9
3. Thermoses	20
4. Thermoplastic-Thermoses	30
5. Applications Research	46
6. Marketing Research	56
7. Process and Processing Development	62
8. Patent and Legal Aspects	76
9. Application Development	79
10. Chemical Marketing and Economics	93
11. Mill Shapes for Engineering Application	102
12. Thermoplastics from the User's Standpoint	119
Index	125
