Woodhead Publishing Series in Food Science, Technology and Nutrition	xi
Preface	xxiii
Part One Food contact legislation: an overview	1
1 Food migration testing for food contact materials	3
<i>M. Ossberger</i>	
1.1 Introduction	3
1.2 Possibilities of food migration testing	4
References	34
2 Compliance testing for food contact materials	43
<i>R. Veraart</i>	
2.1 Introduction	43
2.2 Testing in the European Union	43
2.3 Testing in the United States	50
3 Future trends in global food packaging regulation	65
<i>J.S. Baughan</i>	
3.1 Background	65
3.2 Trend 1: more restrictive requirements for materials used in contact with foods consumed by sensitive populations	67
3.3 Trend 2: more focus on novel materials and how to regulate them	69
3.4 Trend 3: more attention to "chemicals of concern"	71
3.5 Trend 4: more recycled food packaging	72
Part Two Food contact legislation for specific materials	75
4 Global legislation for plastic materials in contact with food	77
<i>R.T. LeNoir</i>	
4.1 Introduction	77
4.2 Food contact jurisdictions around the world	78
4.3 Plastic resins	84
4.4 Special applications	104
4.5 Future trends	107
4.6 Further information	108

5	Global legislation for regenerated cellulose materials in contact with food	109
	<i>A. Ariosti</i>	
5.1	Introduction	109
5.2	Interactions environment-regenerated cellulose foodstuffs	110
5.3	Food and other sanitary applications	111
5.4	Regulatory aspects of regenerated cellulose (RC) for food contact applications	112
5.5	Perspectives and future trends	127
	Acknowledgments	128
	References	129
	Appendix: list of acronyms	138
6	Global legislation for rubber materials in contact with food	141
	<i>J. Sidwell</i>	
6.1	Introduction	141
6.2	Regulatory scene in Europe	143
6.3	Regulatory requirements in the United States	151
6.4	Regulatory requirements in Canada	154
6.5	Legislation in Mercosur countries and applicability of EU and FDA regulations	154
6.6	Requirements for food contact rubber in Japan	154
6.7	Requirements for food contact rubber in China	155
6.8	Taiwan requirements for rubber	156
6.9	Further information: research studies on food contact rubber	157
	References	158
7	A US regulatory perspective on multilayer food contact articles	161
	<i>A. Bailey</i>	
7.1	Introduction	161
7.2	Regulatory authority	162
7.3	Regulatory considerations	163
7.4	Coatings for food packaging	165
7.5	Multilaminare materials for food packaging	172
7.6	Functional barrier concept	177
7.7	Migration modeling	179
7.8	Future trends	180
7.9	Further information	180
	Acknowledgments	180
	References	181
8	Global legislation for active and intelligent packaging materials	183
	<i>D. Dainelli</i>	
8.1	Introduction	183
8.2	The role of packaging innovation	183

8.3	Economic aspects of active and intelligent packaging materials and articles	185
8.4	Regulatory aspects for active and intelligent packaging materials and articles	187
8.5	Active and intelligent packaging materials and articles for food contact applications	188
8.6	Examples of innovative active and intelligent packaging materials and articles	192
8.7	A sight outside Europe	195
8.8	Legislation in other jurisdictions	197
	References	197
	Further reading	199
9	Global legislation for paper and card materials in contact with food	201
	<i>J.S. Baughan</i>	
9.1	Regulation of food contact paper and paperboard in the United States	201
9.2	Regulation of food contact paper and paperboard in South America	203
9.3	Regulation of food contact paper and paperboard in the European Union	205
9.4	Regulation of food contact paper and paperboard in Japan	208
9.5	Regulation of food contact paper and paperboard in China	208
9.6	Future trends in food contact paper regulation	210
	Index	211
