

CONTENTS

1. Flammable and Combustible Principles of Hazardous products	4
2. Classifying Sources of Hazard	21
3. The Extent of Explosion Danger for NEC Class I Locations	44
4. Spatial Considerations	110
5. The Degree of Explosion Danger for NEC Class II Locations	124
6. Ventilation Requirements	136
7. Electrical Equipment for NEC Class I Locations	159
8. Electrical Equipment for NEC Class II, Group F Locations	167
9. Intrinsically Safe Equipment and Wiring	169
10. Installation of Electrical Instruments IN Hazardous Locations	171
11. Hydrogen GAS	174
12. Cathodic Protection	176
13. Static Electricity	178
14. Grounding of Tanks, Pipelines, and Tank Cars	181
15. Grounding Requirements for Electrical Equipment	185
16. Application of Seals in NEC Class I Locations	194
17. Application of Seals in NEC Class II Locations	211
Appendix: Properties of Flammable Liquids, Gases and solids	403
Definitions	411
Bibliography	418
Index	421
