

CONTENTS

| | |
|---|-----|
| 1. Agricultural and Related Chemical Contamination in Foods | 1 |
| 2. Environmental Contaminants in Table-Ready Foods from the Total Diet Program of the Food and Drug Administration | 31 |
| 3. Food Contamination with Cadmium in the Environment | 59 |
| 4. Lead Contamination in Food | 85 |
| 5. Food Contamination with Arsenic in the Environment | 121 |
| 6. Speciation of Selected Trace Elements in Edible Seafood | 145 |
| 7. Residues of Dithiocarbamate Fungicides in Fruits, Vegetables, and Some Field Crops | 197 |
| 8. Residues in Foodstuffs from Bromomethane Soil Fumigation | 227 |
| 9. Pesticide Contamination of Food in the United States | 257 |
| 10. Food Contamination with Insecticide Residues from Nonagricultural Environmental Sources | 295 |
| 11. Environmental Contamination of Food by Nitrosamines Derived from Pesticides | 321 |
| 12. Pesticide Contamination of Milk and Milk Products | 357 |
| 13. Pasteurized Dairy Products | 387 |
| 14. The Formation and Determination of Ethyl Carbonate in Alcoholic Beverages | 457 |
| 15. Food Residues from Pesticides and Environmental Pollutants in Ontario | 473 |
| 16. Human Exposure Pathways to Selected Organ chlorines and PCB in Toronto and Southern- Ontario | 525 |
| 17. Environmental Contaminants in Mexican Food | 541 |
| 18. Monitoring of Pesticide Residues in Food in Hungary | 579 |
| 19. Use of Organ chlorine Pesticides for Pest Control in Buildings | 601 |
| 20. Naturally Occurring Fungal Toxins | 631 |
| 21. Viral Disease Transmission by Seafood | 693 |
| 22. Acute Illness from Environmental Contaminants | 663 |
| Appendix: The Role of the Food and Agriculture Organization of the United Nations in Food Control and Food Contamination Monitoring Programs | 721 |
| Index | 767 |
