

# Contents

1. Introduction.....	5
2. Coating and Ink Products for Food Contact Materials.....	5
2.1 Polymers for Coatings and Inks.....	5
2.1.1 Acrylic.....	6
2.1.2 Alkyd resins .....	6
2.1.3 Amino Resins (e.g., urea-formaldehyde resins).....	7
2.1.4 Epoxy Resins .....	8
2.1.5 Cellulosics.....	9
2.1.6 Polyesters – Saturated and Unsaturated .....	10
2.1.7 Polyurethanes.....	12
2.1.8 Rosin .....	13
2.1.9 Silicone Resins.....	13
2.1.10 Vinyl Polymers.....	14
2.1.11 Other Polymers (e.g., hydrocarbons).....	15
2.2 Constituents of Coatings.....	15
2.2.1 Crosslinking Agents .....	15
2.2.2 Other Additives .....	15
2.2.3 Solvents.....	15
2.3 Constituents of Inks .....	16
2.3.1 Solvents.....	16
2.3.2 Plasticisers.....	16
2.3.3 Driers.....	16
2.3.4 Photoinitiators .....	16
2.3.5 Colorants.....	17
2.3.6 Other Additives .....	18
3. Coatings and Inks used in the Food Chain.....	18
3.1 Food Packaging.....	18
3.1.1 Packaging Types .....	18
3.1.2 Coatings Used in Metal Packaging (Tables 5 to 9).....	19
3.1.3 Coatings and Adhesives for Flexible Packaging (Tables 10 and 11).....	22
3.1.4 Inks for Metal Packaging (Table 12).....	24
3.1.5 Inks for Paper and Board Packaging (Table 13) .....	27
3.1.6 Inks for Flexible Packaging (Table 14).....	28
3.2 Harvesting and Processing of Food .....	28
3.3 Storage and Transportation .....	30
3.4 Presentation, Dispensing and Cooking .....	30

---

4.	Application Techniques for Inks .....	31
4.1	Lithography.....	31
4.2	Flexography .....	31
4.3	Gravure .....	32
4.4	Inkjet .....	32
4.5	Influence of Substrate Type .....	32
4.5.1	Inks for Metal Packaging .....	32
4.5.2	Inks for Paper and Board .....	33
4.5.3	Inks for Flexible Plastic Packaging.....	34
4.5.4	Set Off.....	34
5.	Regulations Covering the Use of Inks and Coatings with Food .....	34
5.1	Regulation in the European Union.....	34
5.2	Council of Europe (CoE) Regulations .....	35
5.2.1	Coatings .....	35
5.2.2	Inks.....	36
5.3	National Regulations within the EU .....	37
5.4	FDA Regulations.....	38
5.5	Other Considerations for Industrial Use .....	38
6.	Assessing the Safety of Inks and Coatings for Food Applications .....	40
6.1	Global Migration Tests .....	40
6.2	Specific Migration Tests .....	41
6.3	Fingerprinting of Potential Migrants from Coatings and Inks.....	41
6.4	Determination of Specific Target Species in Coatings and Ink Products and in Food Simulants and Foods.....	41
6.4.1	Monomers, Solvents and Low Molecular Weight Additives and Breakdown Products ...	42
6.4.2	Oligomers.....	42
6.4.3	Plasticisers and Oil-type Additives .....	42
6.4.4	Polar Additives and Metal Containing Compounds.....	42
6.4.5	Cure System Species, Initiators, Catalysts and Their Reaction Products .....	42
6.4.6	Antidegradants, Stabilisers and Their Reaction Products.....	43
6.5	Sensory Testing .....	43
6.6	Toxicological assessment of migrants .....	43
7.	Potential Migrants and Published Migration Data .....	44
7.1	Acrylates .....	44
7.2	Amines .....	44
7.3	Aromatics from Unsaturated Polyesters .....	45

---

---

7.4	Aromatics from Photoinitiation Reactions and Photoinitiator additives .....	45
7.5	BPA and BADGE and Derivatives.....	46
7.6	Epichlorohydrin .....	47
7.7	Bisphenol A.....	47
7.8	Solvents.....	47
7.9	Plasticisers .....	47
7.10	Extractables from UV-Cured Coating for Cardboard .....	47
7.11	Potential Migrants.....	48
8.	Improving the Safety of Inks and Coatings for Food Use .....	52
8.1	New Food Approved Pigments .....	52
8.2	Water-Based Systems.....	52
8.3	UV/EB Curable Systems .....	53
8.4	New Initiators for UV Curable Inks.....	53
9.	Future Trends .....	53
9.1	Improvements in Recycling Systems.....	53
9.2	Biodegradability.....	53
9.3	Use of Coatings to Improve Barrier Properties of Food Packaging .....	54
9.4	Antimicrobial Systems.....	54
9.5	Laser Marking to replace Conventional Inks.....	54
9.6	Intelligent and Active Packaging .....	54
9.7	Applications of Nanotechnology .....	55
9.8	Developments in Analytical Techniques.....	55
10.	Conclusion.....	55
	Additional References.....	56
	Sources of Further Information and Advice.....	57
	Reference Books .....	57
	Reports .....	58
	Professional, Research, Trade and Governmental Organisations .....	58
	Commercial Abstract Databases .....	58
	Acknowledgements.....	59
	Abbreviations.....	59
	Subject Index .....	109
	Company Index.....	119
