

CONTENTS

Part I Medical Waste Management in the United States Executive Summary	2
1. Characterization of Medical Waste	8
2. Health Hazard Assessment	23
3. Estimated Costs of the Demonstration Program and Improper Management of Medical Wastes	49
4. Demonstration Program Objectives and Evaluation	67
5. Medical Waste Handling Methods	91
6. Medical Waste Treatment Methods	108
7. Medical Waste Treatment Effectiveness	121
8. Existing State and Local Requirements	132
9. Regulatory Options for a National Program	156
10. Appropriateness of Penalties	161
11. Home Health Care and Small Quantity Generator Waste	165
12. Medical Waste Reuse, Recycling and Reduction	195
Part II EPA Guide for Infectious Waste Management Foreword	209
1. Introduction	220
2. Infectious Waste Characterization	224
3. Infectious Waste Management	230
4. Treatment of Infectious Waste	247
5. Suggested Treatment Methods for Each Infectious Waste Category	263
Part III Medical waste Combustion at Municipal Waste Combustion Facilities	
1. Introduction	296
2. Medical Waste	297
3. Impact of Medical Waste on Combustor Emissions	300
4. Important Considerations	301
5. Current Practices-U.S. MWCs	303
6. Current Practices-European and Canadian MWCs	318
7. MWC Manufacturers'/system Suppliers' Recommendations	325
8. Preliminary Recommendations and Research Needs	327
Appendix A-Foreign Environmental Protection Agencies	330
Part IV Hospital medical Waste Incinerator Operation and Maintenance	
1. Introduction	333
2. Hospital Incineration Systems	336
3. AIR Pollution Control	379
4. Operation	406
5. Maintenance	465
6. Control and Monitoring Instrumentation	481

7. Operational Problems and Solutions	498
8. Recordkeeping	513
Part V Waste Minimization Options for Selected Waste Streams	
1. Waste Minimization Options	533
