

## CONTENTS

Gas chromatographic methods for the determination of organic substances in biological material	1
Acetylcholinesterase	45
Arsenic in urine	63
Barium in urine	81
Chromium in whole blood, plasma and erythrocytes	109
1-Hydroxypyrene in urine	151
Indium in urine	171
... <sub>2</sub> -Microglobulin in urine and serum	185
Nickel in blood	193
Polychlorinated Biphenyls in blood or serum	231
