

CONTENTS

SECTION I TECHNOLOGY OF PLASTICS

	Page
1. Status and Prospects of Plastics Industry in India	1
Development of Plastics Industry in India	2
Raw Materials of Plastics Industry	9
End Use Pattern of Plastics in India	15
Plastics Industry in Small Scale Sector	24
International Trade in Plastics	29
Future Prospects of Plastics Industry	37
2. Characteristics and Applications of Plastics	47
PVC and VC/AC Copolymer	47
High density polythene	50
Low density polythene	53
Polypropylene	64
Polyesters	67
3. General Methods of Compounding & Processing	69
Compounding of Plastics	69
PVC compounding	72
Processing of Plastics	77
4. Auxiliary Chemicals & Additives	85
Plasticizers	85
Stabilizers	89
Antioxidants	91
UV absorbers	92
Lubricants	93
Antistatic agents	94
Fillers	96
Pigments and Dyes	100
5. Injection Molding	102
Injection molding process	102
Injection molding machines	105

	Page
Mold design	114
Product design	133
Illustration of product design	137
Trouble shooting in injection molding	143
6. Extrusion Processes	150
Extrusion equipment and machinery	151
Extruder operations	163
Extrusion processes	171
Indian extrusion machinery	185
Trouble shooting in extrusion operations	186
7. Blow Molding	188
Extrusion blow molding	189
Injection blow molding	194
Design aspects in extrusion blow molding	195
Trouble shooting in blow molding	203
8. Compression Molding	205
Handling and pre-conditioning before molding	206
Compression molding process	208
Factors influencing compression molding	210
Molds for compression molding	213
Compression molding presses	216
Trouble shooting in compression molding	218
9. Vacuum Forming	220
Vacuum forming methods	222
Machines and molds for vacuum forming	226
10. Foamed Plastics	233
Theory of expansion processes	234
Foaming agents	236
Manufacture of foamed plastics	239
Applications of foamed plastics	245
Properties of foamed plastics	251
11. Other Miscellaneous Processes	259
Rotational Molding	270
Transfer Molding	259

	Page
Thermoset Extrusion	263
Thermoset Casting	264
Calendering	266
Fabrication or finishing of plastics	274
Reinforced plastics	279
Resin impregnated laminated products	287
12. Plastic Coating and Lamination	293
Plastic film forming materials	296
Manufacture of coated plastics	299
Plastic laminating methods	316
Manufacture of thermoplastic laminates by adhesive lamination	320
13. Plastic Welding and Sealing	323
Heat sealing	324
Heat welding	327
Ultrasonic welding	330
14. Printing of Plastics	335
Electronic discharge treatment	336
Common dangers and defects in electronic discharge treatment	338
Testing and assessment of level of electric discharge treatment	339
Printing Processes	341
Printing inks for Plastics	345
15. Testing and Identification of Plastics	348
Evaluation of plastics	357

SECTION II

PRODUCT PROFILES

1. Phenol Formaldehyde Resin	367
2. Melamine Formaldehyde Resin	373
3. Saturated Polyester Resin For Polyester Foams	377
4. Pearl Polymerized Polymethyl Methacrylate	378
5. Pearl Polymerized Polystyrene	380

	Page
6. Phenol Formaldehyde Molding Powder	382
7. Urea Formaldehyde Powder	384
8. Melamine Formaldehyde Molding Powder	387
9. High Impact Polystyrene Molding Powder	389
10. Cellulose Acetate Molding Powder	390
11. Unsaturated Polyester Molding Powder	392
12. PVC Compounds	394
13. Plastic Reprocessing	396
14. Acrylic Buttons	397
15. Plastic Bangles (Acrylic)	399
16. Plastic Jari and Sitara	400
17. Artificial Acrylic Teeth	402
18. Spectacle Frames (Celluloid)	403
19. Polystyrene Film Capacitors	404
20. Bakelite Electrical Parts	406
21. Acrylic Sheets	407
22. Polythene Bags from LDPE Film	412
23. Polystyrene Shaving Soap Containers	413
24. Plastic Toys and Articles	413
25. Polystyrene Combs	415
26. Plastic Bobbins (HDPE)	416
27. Polystyrene Tumblers	417
28. LDPE Water Jugs	418
29. PVC Footwear	419
30. HDPE Buckets	421
31. HDPE Films and Bags	422
32. Plastic Containers (HDPE)	423
33. Plastic Canes	425
34. Polypropylene Box Strappings	426
35. Ball Pen Refills and Drinking Straws (HDPE/Polypropylene)	428
36. Polypropylene Cast Film	430
37. Transparent PVC Film	431
38. HDPE Woven Sacks	432
39. Rigid PVC Pipes and Flexible Tubings	434
40. PVC Cables	437
41. Black Insulation Tapes	440
42. Pressure Sensitive Tapes	441
43. PVC Leather Cloth	444
44. PVC Foam Leather Cloth	447
45. PVC Latex Coated Products	450

	Page
46. Lamination of LDPE on HDPE Woven Sacks, Paper, Cotton Fabric and Hessian and Aluminium Foils	452
47. LDPE—Lined Bituminized Hessian Bags	455
48. Adhesive Laminated PVC Wall Paper	457
49. Vinyl Asbestos Floor Tiles	459
50. Decorative Laminates	460
51. PVC Reinforced Flexible Hoses	463
52. FRP Helmets	466
53. Hand Lay-up Molded FRP Panels	468
54. Spray Molded FRP Panels	469
55. Polyester Foams	471
56. Polyurethane Foam from Polyether	472

SECTION III

DIRECTORY

Directory of Manufacturers of Plastic Products	477
--	-----

SECTION IV

APPENDICES

1. Characteristics and Applications of Commercial Plastics	553
2. Bibliography	568
3. Bibliography of Standards and Specifications for Plastics	570
4. ISI Specifications of Selected Plastic Molding Materials	578
5. ISI Specifications of Selected Plastic Products	581
6. Testing Methods of Plastics	587
7. Formulae for Calculations	603
8. Recommended Practices for Plastic Processing	607
9. General Properties of Plastics	631
10. Manufacturers and Suppliers of Raw Materials	637
11. Manufacturers and Suppliers of Plant, Equipments and Machinery	645
