Preface	1
Introduction	3
Chapter 1 CONTRIBUTION OF INDUSTRIAL DESIGN TO EXPORT EXPANSION	10
Introduction	10
A. Some accepted definitions of industrial design	12
B. Importance of industrial design for economic development	15
C. Commercial importance of industrial design for developing countries	18
1. Meeting product requirements in export markets	19
2. Encouraging labour-intensive manufacture: its benefits for economic development	20
3. Reducing reliance on foreign technology while increasing local cultural content in product design	21
D. Importance of redesigning established products	22
Chapter 2 FORMULATION OF DESIGN ASSISTANCE SCHEMES FOR EXPORT PROMOTION PROGRAMMES	24
Introduction	24
A. The design unit defined	26
B. Major functions of a design unit	27
C. Getting started: formulating and carrying out a survey	28
1. General	28
2. Canada	30
3. Ireland	31
4. Israel	31
5. Pakistan	32
D. Implementing survey results: the time frame	33
Chapter 3 ORGANIZATIONAL STRUCTURES AND OPERATIONAL FUNCTIONS FOR DESIGN ASSISTANCE UNITS IN EXPORT PROMOTION AGENCIES	37
Introduction	37
A. Role of the design unit in a national export promotion survey	38

B. Organizational structures	40
1. Ministry or government department	41
2. Governing council or managing board of the design unit	41
3. Management of the design unit	41
4. Section heads and programme directors	42
C. Co-ordinating design assistance schemes with export promotion services	42
D. Export promotion aspects of a design unit's operational functions	44
1. Providing incentives for the engagement of professional designers	44
2. Promotion of the industrial design profession	45
3. Assistance to national educational authorities	46
4. Organization and operation of exhibition facilities and ancillary services	47
E. Importance of enabling legislation	48
F. A variant of the design unit: the craft-based product prototyping centre	50

Chapter 4 INCENTIVE GRANT SCHEMES FOR DESIGN PROMOTION UNITS: A REVIEW OF THE MAIN FEATURES	56
Introduction	56
A. General system characteristics	57
1. Administering agency	57
2. Objectives of a grant scheme	58
3. Source of finance	59
4. Starting capital	60
5. Current annual operating costs	61
6. Coverage of a grant scheme by product type	62
B. Operational details and project selection criteria of the five schemes	63
1. The incentive feature	63
2. Eligibility requirements for applicants and projects	64
3. Costs covered by a grant	65
(a) Canada	65
(b) Ireland	66
(c) Israel	66
(d) Norway	67
(e) Pakistan	67

4. Maximum grant allowed	68
5. Source of the designer	69
6. Pay-back provisions	71
C. Guidelines for the establishment of an incentive grant scheme	71
D. When should an incentive grant scheme be started?	75
Chapter 5 PROMOTING THE NATIONAL INDUSTRIAL DESIGN PROFESSION	79
Introduction	79
A. Relationship of the design unit with the national industrial designers association	80
B. Design unit services for professional designers	81
C. The national register of designers: organization and operation	85
D. Maintaining international contacts: ICSID and ICOGRADA	88
Chapter 6 THE DESIGN UNIT'S ROLE IN PROMOTING INDUSTRIAL DESIGN EDUCATION	93
Introduction	93
A. Industrial design education in developed countries	94
B. Role of a design unit in promoting industrial design education	98
C. ICSID activities in industrial design education	102
D. Sources of information on industrial design education	103
1. Training programmes and short-term course formats, including syllabi	104
2. Degree-level curricula and course syllabi	104
3. Locating instructors and teaching materials	105
4. Fellowships and scholarships for industrial design training abroad	106
5. Model fellowship and scholarship programmes for design units	107
Chapter 7 DESIGN EXHIBITIONS AND THE DESIGN UNIT	110
Introduction	110
A. What is a design centre?	111

B. Target audiences for a design centre	113
1. The general public	113
2. Buyers	114
3. Manufacturers who exhibit products and their competitors	115
4. The design profession	116
C. Frequency, duration and major types of exhibition	117
1. Frequency and duration	117
2. Types of exhibitions	120
(a) Permanent exhibitions	120
(b) Periodic exhibitions	121
D. Facilities and financing	123
1. Location and size of exhibition facilities	123
2. Financing	125
3. Service charges	126
4. Visiting hours	127
E. Supporting schemes and services	127
1. Product selection	128
2. Juries for product evaluation and selection	128
3. Design awards and competitions	129
4. Design index	130
5. Photo library	130
6. Design library	131
F. When should a design centre be established?	131
G. Further sources of information on design centres	133

Chapter 8 PROMOTION OF PACKAGE DESIGN	136
Introduction	136
A. The packaging consultant and the package designer	137
B. Package design and development by the materials or package supplier	139
C. Role of design and packaging units in promoting improved package design	140
1. General	140
2. An industrial design service that includes a package design section	142

3.	A package development advisory service operated by a packaging institute that develops new designs for local industry for a fee	143
4.	Publicly financed incentive grant schemes for exporters and manufacturers that help to defray the costs of design consultants	144
5.	Package design promotional programmes operated by design and packaging organizations that do not themselves offer design services	145
(a)	Packaging Centre of the Hong Kong Federation of Industries	145
(b)	Packaging Section of the Thai Industrial Service Institute	145
(c)	Israel Packaging Institute	146
D.	Sources of information on package designers and consultants	146
Chapter 9	SOURCES OF TECHNICAL ASSISTANCE FOR DESIGN PROMOTION	149
	Introduction	149
A.	Organizations providing technical assistance for design promotion	150
1.	General	150
2.	International intergovernmental agencies	151
(a)	International Trade Centre UNCTAD/GATT (ITC)	151
(b)	United Nations Industrial Development Organization (UNIDO)	153
(c)	International Labour Organization (ILO)	154
(d)	United Nations Educational, Scientific and Cultural Organization (UNESCO)	155
(e)	Organization of American States (OAS)	156
3.	National bilateral technical assistance agencies	157
4.	International organizations composed of national design bodies	158
5.	National design promotion organizations	160
6.	Private sector technical assistance groups in industrialized countries	161
B.	Procedure for obtaining assistance from United Nations agencies	162
C.	Role of technical assistance in the national design promotion effort	164

Chapter 10	ADDITIONAL SOURCES OF INFORMATION	167
	Introduction	167
A.	Role of a documentation unit in design promotion	168
B.	Categories of design-related information	170
1.	Market data	170
2.	Official data	171
3.	Professional data	171
4.	Sources of technical assistance	171
5.	Educational data	172
6.	Promotional data	172
7.	Institutional data	172
C.	Sources of design-related information	172
D.	Cost of design-related documentation	174
E.	Trade documentation from the target market as a source of ideas	175
1.	Published product documentation	175
2.	Unpublished market data	176
3.	Photographs	176
Appendices ¹		
I.	Case history: the National Design Promotion Programme of the Government of Canada	177
II.	Case history: the design assistance programme of the Irish Export Board	227
III.	Case history: design promotion in Israel	285
IV.	Case history: the Norwegian Design Centre organization and activities	315
V.	Case history: creation and development of the Pakistan Design Centre - a joint undertaking of the Swiss Technical Co-operation Service and the Export Promotion Bureau, Government of Pakistan	353
VI.	International Council of Societies of Industrial Design (ICSID)	401
VII.	International Council of Graphic Design Associations (ICOGRADA)	413
VIII.	Bibliography	417

¹Each appendix is preceded by a detailed contents list.
