PREFACE	xi
<b>1 HISTORY AND ROLE OF PUBLIC TRANSPORTATION IN URBAN DEVELOPMENT</b>	<b>1</b>
1.1 Early Developments of Cities	2
1.1.1 <i>Transportation and locations of cities,</i>	<i>2</i>
1.1.2 <i>Transportation and city size,</i>	<i>4</i>
1.1.3 <i>Form and structure of cities,</i>	<i>4</i>
1.1.4 <i>The Industrial Revolution, urbanization, and growth         of cities,</i>	<i>6</i>
1.2 Beginnings of Public Transportation	11
1.2.1 <i>Public transportation before the nineteenth         century,</i>	<i>11</i>
1.2.2 <i>Horse-drawn omnibuses,</i>	<i>12</i>
1.2.3 <i>Horse-drawn tramways,</i>	<i>14</i>
1.2.4 <i>Mechanized street transit technologies         before 1880,</i>	<i>16</i>

- 1.3 Invention of Electric Streetcars (Tramways) 19
  - 1.3.1 *Beginnings of electric streetcars in the United States, 19*
  - 1.3.2 *Introduction of electric tramways in Europe, 23*
- 1.4 Street Transit in the Twentieth Century 25
  - 1.4.1 *Streetcars, 26*
  - 1.4.2 *Motorbuses, 32*
  - 1.4.3 *Trolleybuses, 37*
- 1.5 Development of High-Speed Rail Transit Modes 41
  - 1.5.1 *Suburban railways (regional rail), 41*
  - 1.5.2 *Electric interurban railways, 44*
  - 1.5.3 *Rapid transit, 47*
- 1.6 Overview and Conclusions: Transit Development and Cities 50

## 2 URBAN PASSENGER TRANSPORT MODES 59

- 2.1 Transit Classifications and Definitions 59
  - 2.1.1 *Classification by type of usage, 60*
  - 2.1.2 *Transit modes, 60*
  - 2.1.3 *Transit system components, 69*
  - 2.1.4 *Transit system operations, service, and characteristics, 70*
- 2.2 Theory of Urban Passenger Transport Modes 71
  - 2.2.1 *Transportation system evolution in a model urban area, 71*
  - 2.2.2 *Review of modal features, 81*
- 2.3 The Family of Transit Modes: Definitions and Comparisons 86
  - 2.3.1 *Low-capacity modes: paratransit, 86*
  - 2.3.2 *Medium-capacity modes: street transit, 87*
  - 2.3.3 *High-performance modes: semirapid transit and rapid transit, 89*
  - 2.3.4 *Review of the family of regular transit modes, 95*
  - 2.3.5 *Commuter transit, 104*
- 2.4 Trends in Transit Ridership and in Use of Different Modes 105
  - 2.4.1 *Urban travel and transit ridership, 106*
  - 2.4.2 *Uses of different modes, 111*

**3.1 Vehicle Motion 119****3.2 Resistance to Motion 119***3.2.1 Vehicle resistance, 122**3.2.2 Alignment resistance, 126***3.3 Propulsion 129***3.3.1 Definitions and units, 129**3.3.2 The internal combustion engine, 130**3.3.3 Electric traction, 133**3.3.4 Motor braking, 147**3.3.5 Comparison of electric and diesel traction, 150***3.4 Adhesion 152***3.4.1 Definition and characteristics, 152**3.4.2 Typical values of  $\mu$ , 154***3.5 Vehicle Acceleration, Braking, and Stopping Distances 154****3.6 Station-to-Station Travel Analysis 157***3.6.1 Basic variables of vehicle motion, 157**3.6.2 Regimes of motion, 159**3.6.3 Travel time equations and diagrams, 162**3.6.4 Sensitivity of travel time and speed to individual parameters, 169***3.7 Energy Consumption and Efficiency 174***3.7.1 Structure of energy consumption analysis, 176**3.7.2 Influence of operating regimes, 177**3.7.3 Potential energy savings through preprogrammed driving, 180**3.7.4 Measures of energy consumption, 183***4 HIGHWAY TRANSIT MODES: BUSES AND TROLLEY BUSES****4.1 Family of Highway Transit Modes 191***4.1.1 Definitions, 191**4.1.2 General characteristics, 192***4.2 The Vehicles 193***4.2.1 Classification by propulsion systems, 193**4.2.2 Classification by body type, 198**4.2.3 Propulsion, equipment, and performance, 224*

- 4.2.4 *The body, 229*
- 4.2.5 *Review of bus models, characteristics, and design trends, 237*

#### 4.3 Travel Ways 241

- 4.3.1 *Geometric elements, 241*
- 4.3.2 *Operation in mixed traffic, 242*
- 4.3.3 *Bus preferential treatments: purposes and types, 244*
- 4.3.4 *Preferential treatments on streets and arterials, 250*
- 4.3.5 *Preferential treatments on freeways, 259*
- 4.3.6 *Busways, 264*

#### 4.4 Stops, Stations, and Garages 270

- 4.4.1 *Bus stops on streets, 270*
- 4.4.2 *Bus stops on freeways, 275*
- 4.4.3 *Stations and terminals, 275*
- 4.4.4 *Garages, storage facilities, and maintenance shops, 281*

#### 4.5 Operations, Performance, and Costs 287

- 4.5.1 *Operations and types of service, 287*
- 4.5.2 *Performance characteristics, 288*
- 4.5.3 *Service quality and system impacts, 290*
- 4.5.4 *Costs, 290*
- 4.5.5 *Trolleybuses: characteristics and applications, 293*

#### 4.6 Present and Future Role of Highway Transit Modes 294

### 5 RAIL TRANSIT MODES: STREETCARS, LIGHT RAIL, RAPID TRANSIT, AND REGIONAL RAIL

301

#### 5.1 Family of Rail Transit Modes 301

- 5.1.1 *General characteristics, 302*
- 5.1.2 *Definitions and characteristics of individual rail modes, 306*

#### 5.2 Rolling Stock 314

- 5.2.1 *Rail vehicle types and basic components, 316*
- 5.2.2 *Trucks, mechanical, and electrical equipment, 320*
- 5.2.3 *Vehicle body, 329*
- 5.2.4 *Review of characteristics of different vehicle models, 345*
- 5.2.5 *Basic operating units and train consists, 360*

### 5.3 Rail Transit Ways: Geometry and Facilities 366

5.3.1 *Geometric elements, 367*

5.3.2 *Track superstructure, 374*

5.3.3 *Rights-of-way, 384*

### 5.4 Rubber-Tired Rapid Transit (RTRT) 406

5.4.1 *Description of the technology, 407*

5.4.2 *Characteristics and comparison with rail technology, 409*

5.4.3 *Potential applications of rubber-tired rapid transit, 410*

### 5.5 Stops, Stations, and Yards 412

5.5.1 *At-grade stops, 412*

5.5.2 *At-grade transfer stations, 412*

5.5.3 *Controlled-access stations, 413*

5.5.4 *Auto-transit interface stations, 432*

5.5.5 *Rail transit yards and shops, 435*

### 5.6 Operations, Performance, and Costs 435

5.6.1 *Vehicle/train travel control and automation, 437*

5.6.2 *Performance characteristics of rail modes, 448*

5.6.3 *Rail transit costs, 453*

### 5.7 Present and Future Role of Rail Transit 459

5.7.1 *Trends in urban population and auto ownership, 459*

5.7.2 *Objectives and goals in building rapid transit systems, 462*

5.7.3 *What size city for rapid transit?, 464*

5.7.4 *Development of rail transit in the United States, 465*

5.7.5 *Future role of rail transit around the world, 467*

## 6 NEW CONCEPTS AND PROPOSED MODES

476

### 6.1 Need for Technological Innovations in Transit 476

### 6.2 Innovative Technological and Operational Concepts 478

6.2.1 *Dual-mode operation, 479*

6.2.2 *Support, guidance, and switches, 481*

6.2.3 *Operational concepts, 487*

6.2.4 *Vehicle capacity, 489*

### 6.3 Proposed Modes and Systems 492

6.3.1 *Dual-mode systems, 493*

6.3.2 *Personal rapid transit (PRT), 494*

6.3.3 *Group rapid transit (GRT), 498*

6.3.4 *Rapid transit category, 508*

6.4 **Evaluation of New Concepts and Proposed Modes 510**

## **7 TRANSIT SYSTEM PERFORMANCE: CAPACITY, PRODUCTIVITY, EFFICIENCY, AND UTILIZATION 516**

7.1 **Definitions of Quantitative Performance Attributes 517**

7.1.1 *Basic attributes, 517*

7.1.2 *Transportation work and productivity, 517*

7.1.3 *Transit system efficiency and productivity, 520*

7.1.4 *Consumption and utilization, 522*

7.2 **Transit Line Capacity 522**

7.2.1 *Definitions, 522*

7.2.2 *Vehicle capacity, 526*

7.3 **Way Capacity 532**

7.3.1 *Basic elements, 532*

7.3.2 *Vehicle control categories in transit operation, 536*

7.3.3 *Operating safety regimes, 537*

7.3.4 *Impacts of train size and control characteristics, 543*

7.3.5 *Application of equations to different modes, 549*

7.4 **Station Capacity 554**

7.4.1 *Significance and definitions, 554*

7.4.2 *Components and influencing factors, 554*

7.4.3 *Capacity diagrams and equations, 556*

7.4.4 *Measures to increase station capacity, 562*

7.5 **Theoretical and Practical Capacities of Major Transit Modes 568**

7.5.1 *Important considerations in capacity computations, 568*

7.5.2 *Review of theoretical capacities, 570*

7.5.3 *Actual capacities of major transit modes, 571*

7.6 **Other Quantitative Performance Measures 581**

7.6.1 *Transportation quantity or volume, 582*

7.6.2 *System and network performance, 582*

7.6.3 *Transportation work and productivity, 584*

7.6.4 *Transit system efficiency (productivity) indicators, 585*

7.6.5 *Consumption rates and utilization indicators, 586*

**8 PARATRANSIT AND SPECIALIZED MODES** 592

**8.1 Paratransit 593**

- 8.1.1 Definition and classifications, 593*
- 8.1.2 Modified uses of private transportation, 594*
- 8.1.3 Semipublic paratransit, 597*
- 8.1.4 Public (regular) paratransit, 600*
- 8.1.5 Evaluation of paratransit and its role, 609*

**8.2 Specialized Services and Technologies 613**

- 8.2.1 Short-haul transportation, 613*
- 8.2.2 Point-to-point transportation, 618*
- 8.2.3 Terrain-specialized technologies, 619*
