

To Begin With	7
The Purposes of This Book	11
I Some suggestions on the teaching of elementary general science	19
II How to make some general pieces of equipment	31
III Plants	39
IV Animals	52
V Rocks, soils, minerals and fossils	58
VI Astronomy	64
VII Air and air pressure	72
VIII Weather	86
IX Water	95
X Machines	108
XI Forces and inertia	115
XII Sound	122
XIII Heat	131
XIV Magnetism	143
XV Electricity	150
XVI Light	173
XVII The human body	186
XVIII Some useful notes for teachers	191
APPENDICES	
A Weights and measures	199
B Stars and planets	201
C Table of the elements	203
D Rocks and minerals	205
E Table of densities	207
F Heat constants	208
G Relative humidity	210
H Greek alphabet	212
I Sources, books and visual aids for amateur science activities	213
Periodicals for science teaching and science clubs' libraries	214
Short list of suppliers of scientific instruments	218
