

TABLE OF CONTENTS

Preface xi

Making the Classroom a Research Laboratory xiii

SECTION I CHEMISTRY

(General Laboratory Equipment)

Science Laboratory Workbench*	3	Clothes Hanger Chemistry	
Gravity Wash Bottle*	5	Stands*—Filter Paper	32
Light Bulb Chemistry Flask*	5	Graduated Beaker*	33
Cutting Glass Tubing	7	Stirring Rod*	34
Bending Glass Tubing	8	Petri Dish	34
Graduate and Chemistry Flask*	8	Measuring Spoon*	35
Alcohol Burner*	10	Acid Bottle	35
Broad Flame Alcohol Burner	11	Wash Bottle	36
Pipette*	12	Asbestos Board	37
Mouth Pipette	13	Drilling Glass	37
Blowtorch Type of Alcohol Burner	13	Litmus Paper	38
Large Pipette—Glass Blowing	14	Sensitive Gram Scale*	38
Burette Clamp and Test Tube Holder*	15	Metric Weights*	40
Mason Jar Chemistry Flask*	16	Soda Straw Chemical Balance*	41
Funnel*	16	Bridge for Pneumatic Trough	42
String Filter	17	Thistle Tube	44
Plant Pot Filter	17	Hydrogen Generator	44
Tripod and Adjustable Rings*	18	Oxygen Generator	45
Support Stand*	20	Chemical Source of Hydrogen	46
Ring Support for Support Stand and Test Tube Holder*	20	Safety Gas Generator	47
Bottle Etcher	21	X Connector	48
Glass Cutter	22	T Tube*	48
Bottle Cutter	23	Adjustable Clamp*	49
Salt Water Rheostat	24	Crystal Coal Garden	50
Carbon Arc Furnace	25	Growing Crystal Candy	51
Adjustable Glass Bottle Etcher	27	Growing Gem Crystals	52
Test Tubes*	28	Recipes for Growing Crystals	58
Test Tube Racks*	29	Polarimeter	61
Retort and Liebig Condenser	29	Hydrometer	63
Distillation Condenser	31	Cartesian Diver	64
		Problems to Investigate in the Study of Chemistry	66

SECTION II PHYSICS

1. Astronomy and Light

Star Chart	79	Vacuum Pump	101
Refracting Telescope	81	Vacuum Jar—Bell Jar	103
Spectroscope	84	Solar Furnace	104
Astrolabe	85	Solar Distillation Apparatus	105
Dip Circle Meter	87	Constellation	107
Universal Sundial	88	Problems to Investigate in the Study of Astronomy and Light	108
Planetarium—Model of the Solar System	90	Problems in the Study of the Moon	109
Umbrella Planetarium	92	Problems in the Study of Heat, Light, and Color	112
Planetarium Projector	93	Problems in the Study of Lenses	117
Foucault Pendulum	94	Problems in the Study of Black Light	118
Sunspot Viewer	96		
Moon Range Finder	97		
Water Faucet Vacuum Pump	99		
Vacuum Jar Pressure Gauge	99		

2. Atomic Energy

Atomic Time Clock	121	Dosimeter	124
Spinthariscopes	122	Diffusion Cloud Chamber	127

3. Electricity and Magnetism

Making a Magnet	133	Conductivity Tester	159
Magnetometer	134	A.C. or D.C. Power Supply	161
Needle Compass	135	Power Supply Transformer	163
Watch Spring Compass	137	Lamp Bank Rectifier and Battery Charger	166
Columbus Compass	137	Carbon Rods—Carbon Electrodes	167
Iron Filings	138	Electrolysis Tank	168
Electroscope	139	Test Tube Electric Motor	169
Pith Ball Electroscope	141	Bolt and Nut Motor	171
Electronic Electroscope	142	Door Bell	172
Electrophorus	146	Electric Buzzer	173
Leyden Jar	147	Telegraph Key	175
Solenoid	149	Telegraph Sounder	175
Lemon Battery	150	Telegraph Solenoid Sounder	176
Blotting Paper Battery	150	International Code	177
Electric Cell*	151	Simple Oscilloscope	178
Galvanoscope	151	Analog Computer	179
Storage Battery*	153	Digital Computer	183
Mercury Switch	154	Problems to Investigate in the Study of Electricity and Magnetism	184
Safety Pin Switch	155		
Rheostat	155		
Push Button	156		
Pencil Rheostat	157		
Current Reverser	158		

4. Force, Measurement, and Motion

Spring Scale	195	Hand Stroboscope	201
Rubber Band Weighing Scales	196	Motorized Stroboscope	202
Meter Stick	196	Water Hourglass	204
Optical Micrometer	197	Stop Clock	205
Centrifugal Force Indicator	199	Harmonograph	206

5. Geology

General Equipment	209	Specific Gravity Test	214
Rock and Mineral Worksheet	210	Bead Test	215
Tests for Hardness, Color, Luster, Streak, Fusibility, and Acid	211	Mineral Identification Chart	218
		Seismograph	220
		Volcano	223

6. Meteorology (Weather)

Anemometer	225	Mercury Barometer	240
Rain Gauge	226	Chemical Weather Glass	242
Wind Vane	228	Air Current Detector	244
Nephoscope	229	Air Thermometer	245
Beaufort Wind Scale	231	Cloud Jar	247
Wind Chill Table	231	Air Barometer	248
Balloon Barometer	233	Convection Current Box	250
Aneroid Barometer	234	Sunshine Recorder	251
Hair Hygrometer	236	Radiometer	253
Wet- and Dry-Bulb Hygrometer	237	Weather Balloon	254
Relative Humidity Table	239	Problems to Investigate in the Study of Meteorology	
Daily Weather Record Chart	239	(Weather)	256

SECTION III BIOLOGY

Light Source for a Microscope*	267	Insect Net	291
Water Drop Magnifying Glass	268	Killing Jar	292
Eyedropper*	268	Insect Mounting Box	293
Low-Power Microscope*	269	Quick Freeze Chamber	293
Leeuwenhoek-Type Microscope	270	Chest Cavity	294
Bacteria Garden	272	Metabolism Chamber	296
Micrograph	274	Aquarium	297
Polarized Light Filters	275	Terrarium	299
Microbiology Cultures	278	Dissecting Needle*	300
Growing Brine Shrimp	281	Dissecting Pins*	301
Microscope Slide-Making	284	Dissecting Knife*	301
Microtome	287	Animal Cage	302
Precision Microtome	288	Problems to Investigate in the Study of Biology	303
Animal Maze	290
