510 HOF

CONTENT

	Page
CHAPTER 1 LINEAR FUNCTIONS AND STRAIGHT LINES	**1**
1. Functions and lines	3
2. Linear models	12
3. Intersections of lines	17
CHAPTER 2 MATRIX ALGEBRA	**25**
1. Matrices	27
2. Matrix multiplication	32
3. Systems of linear equations	38
4. Matrix inversion	46
5. Matrix models	53
CHAPTER 3 LINEAR PROGRAMMING	**61**
1. Linear models	63
2. The geometric method	70
3. The Simplex method	76
4. Network models	82
CHAPTER 4 SETS AND COUNTING	**93**
1. Sets	95
2. Counting	103
CHAPTER 5 PROBABILITY	**115**
1. Basic concepts	117
2. Laws of probability	128
3 Conditional probability	132
4. Counting and Probability	139
5. Independence	147
6. Markov chains	154
CHAPTER 6 DISTRIBUTIONS	**167**
1. Random sampling	169
2. Estimation	173
3. Hypothesis testing	181
4. Linear Correlation and prediction	188
CHAPTER 7 STATISTICAL INFERENCE	**195**
1. Random sampling	197
2. Estimation	201

3. Hypothesis testing 208
4. Linear correlation and prediction 212
CHAPTER 8 DECISION THEORY AND THE THEORY OF GAMES 223
1. Bayesian methods 225
2. Matrix games 231
3. Saddle points and mixed strategies 236
4. Investment models 245
CHAPTER 9 THE MATHEMATICS OF FINANCE 253
1. Simple and compound interest 255
2. Annuities 261
3. Amortization and sinking funds 267
CHAPTER 10 FUNCTIONS AND GRAPHS 273
1. Algebraic functions 275
2. Functional models 284
CHAPTER 11 DIFFERENTIAL CALCULUS 289
1. The derivative 291
2. Techniques of differentiation 298
3. Rate of Change 303
4. The chain rule 308
5. Maxima and minima 313
6. Practical optimization problems 322
7. The second derivative test 329
8. Partial derivatives 333
CHATPER 12 EXPONENTIAL AND LOGARITHMIC FUNCTIONS 339
1. Exponential functions 341
2. Exponential models 346
3. The natural logarithm 352
4. Differentiation of logarithmic and exponential functions 359
CHAPTER 13 INTEGRAL CALCULUS 365
1. Antiderivatives 367
2. Integration by substitution 372
3. Differential equations 376
4. The definite integral 382
5. The fundamental theorem of calculus 389
APPENDIX ALGEBRA REVIEW 399
TABLES 410
ANSWERS TO ODD-NUMBERED PROBLEMS 415
