510 LIA 2nd ed.

CONTENTS

1 Linear Models	1
1.1 Functions	1
1.2 Linear Functions	7
1.3 Slope and the Equation of a Line	15
1.4 Linear Mathematical Models	23
1.5 Constructing Mathematical Models (optional)	37
Key Words	44
Chapter 1 Review Exercises	44
2 Matrix Theory	47
2.1 Basic Matrix Operations	47
2.2 Multiplication of Matrices	53
2.3 Systems of Linear Equations	65
2.4 Solution of Linear Equations	65
2.5 Matrix Inverses	85
2.6 Input-Output Models	94
Key Words	104
Chapter 2 Review Exercises	104
3 Linear Programming-The Graphical Method	108
3.1 Systems of Linear Inequalities	108
3.2 Solving Linear Programming problems Graphically	114
3.3 The Graphical Method with Three Variables (optional)	122
Key Words	126
Chapter 3 Review Exercises	126
4 Linear Programming – The Simplex Mthod	129
4.1 Slack Variables and the Pivot	129
4.2 Maximization Problems	138
4.3 Problems with Both <and > Constraints and Minimization	147
Key Words	159
Chapter 4 Review Exercises	159
Sets and Counting	162
5.1 Sets	162
5.2 Set Operations	167
5.3 Venn Diagrams	171
5.4 Permutations and Combinations	178
5.5 The Binomial Theorem (optional)	186
Key Words	190
Chapter 5 Review Exercises	190

6 Probability 192
6.1 Sample Spaces 192
6.2 Basics of Probability 199
6.3 Extending the Addition Rule 209
6.4 Applications of Counting 215
6.5 Conditional Probability 221
6.6 Bayes' Formula 234
Key Words 248
Chapter 6Review Exercises 249
7 Markov Chains 253
7.1 Basic Properties of Markov Chains 253
7.2 Regular Markov Chains 261
7.3 Absorbing Markov Chains 268
Key Words 276
Chapter 7 Review Exercises 276
8 Staktistics and Probability Distributions 280
8.1 Basic Properties of Probability Distributions 208
8.2 Expected Value 289
8.3 Variance and Standard Deviation 301
8.4 The Normal Distribution 308
8.5 The Normal Curve Approximation to the Binomial Distribution 319
8.6 Curve Fitting – The Least Squares Method 326
Key Words 333
Chapter 8 Review Exercises 333
9 Decision Theory 337
9.1 Decision Making 337
9.2 Strictly Determined Games 346
9.3 Mixed Strategies 352
Key Words 366
Chapter 9 Review Exercises 366
10 Mathematics of Finance 368
10.1 Simple Interest and Discount 368
10.2 Compound Interest 373
10.3 Annuities 380
10.4 Present Value of an Annuity: Amortization 385
Key Words 396
Chapter 10 Review Exercises 397
Appendix Exponents and Logarithms 402
Tables 411
1 Combinations 411

2 Cumulative Distribution – Standard Normal 412
3 Compound Interest 414
4 Present Value of a Dollar 415
5 Amount of an Annuity 416
6 Present Value of an Annuity 417
7 1/sni 418
8 Powers of e 419
9 Natural Logarithms 420
Answers to Selected Exercises 421
Index 447
Questionnaire 461
