

CONTENTS

Nuclear Reactions with Oriented Target Nuclei and Polarized Beams	1
Superconductive Switching	37
Geophysical Results obtained from Satellite Orbits	63
Dispersion Relations in Strong-coupling Physics	99
Solar Observations obtained from Vertical Sounding	163
The Cohesive Forces in Metals and Alloys	218
Magnetohydrodynamics	244
Shock Waves in Gases	287
Health Physics	337
The Radial Distribution Curves of Liquids by Diffraction Methods	395
The Mossbauer Effect	441
Cumulative Author Index	525
Cumulative Subject Index	527
