

CONTENTS

| | |
|---|-----|
| Some recent work on ferroelectrics | 1 |
| Green functions in statistical mechanics | 23 |
| Green functions in low-energy nuclear physics | 53 |
| Devices for the detection of energetic particles | 93 |
| Matter transport in solids | 161 |
| Microwave and optical masers | 241 |
| Volume-controlled current injection in insulators | 329 |
| Electroluminescence | 369 |
| The theory of weak interactions | 407 |
| The measurement of oscillator strengths in atomic spectra | 469 |
