# 530 SEA 3rd ed.

#### **1 COMPOSITION AND RESOLUTION OF VECTORS**

| 1-1  | The fundamental indefinables of mechanics.    |   |   |   |   |   |  |   |   | 1  |
|------|---|---|---|---|---|---|--|---|---|----|
| 1-2  | Standards and units                           | • |   |   | • |   |  |   |   | 1  |
| 1-3  | Symbols for physical quantities               |   |   |   |   |   |  | • |   | 5  |
| 1-4  | Force   | • |   |   |   |   |  |   |   | 6  |
| 1–5  | Graphical representation of forces. Vectors   |   |   |   |   |   |  |   |   | 7  |
| 1-6  | Vector addition. Resultant of a set of forces |   |   | • |   |   |  |   | • | 8  |
| 1–7  | Resultant of parallel and antiparallel forces | • |   | • |   | • |  |   |   | 11 |
| 1-8  | Components of a vector                        |   |   |   |   | • |  |   |   | 12 |
| 1-9  | Resultant by rectangular resolution           | • | • | • | • |   |  |   |   | 14 |
| 1-10 | Vector difference                             |   |   |   |   |   |  |   |   | 16 |

## 2 EQUILIBRIUM OF A PARTICLE

| 2-1 | Introduction                               |     |  |  |  |  | 20 |
|-----|--|-----|--|--|--|--|----|
| 2–2 | Equilibrium. Newton's first law            |     |  |  |  |  | 20 |
| 2–3 | Discussion of Newton's first law of motion | • • |  |  |  |  | 23 |
| 2–4 | Stable, unstable, and neutral equilibrium  |     |  |  |  |  | 24 |
| 2-5 | Newton's third law of motion               |     |  |  |  |  | 24 |
|     | Equilibrium of a particle                  |     |  |  |  |  |    |
|     | Friction                                   |     |  |  |  |  |    |

## 3 EQUILIBRIUM OF A RIGID BODY

| 3–1 | Moment of a force                   |   |   |  |   |   |   |  |   | 44 |
|-----|-------------------------------------|---|---|--|---|---|---|--|---|----|
| 3–2 | Vector product. Vector moment       | • |   |  |   |   | • |  | • | 47 |
| 3-3 | The second condition of equilibrium |   | • |  | • |   |   |  |   | 48 |
| 3–4 | Resultant of parallel forces        |   |   |  |   | • |   |  |   | 53 |
|     | Center of gravity                   |   |   |  |   |   |   |  |   |    |
| 3-6 | Counles                             |   |   |  |   |   |   |  |   | 57 |

## 4 RECTILINEAR MOTION. SPECIAL RELATIVITY

| 4–1 | Motion                                 |   |   |       |   |   |   |   | 64 |
|-----|--|---|---|-------|---|---|---|---|----|
| 4-2 | Average velocity                       |   |   |       |   |   |   |   | 64 |
| 4-3 | Instantaneous velocity                 |   |   |       |   |   |   |   | 65 |
| 4–4 | Average and instantaneous acceleration |   |   | <br>• |   |   |   |   | 68 |
| 4-5 | Velocity and coordinate by integration |   |   |       | • |   | • |   | 71 |
| 4–6 | Uniformly accelerated motion           |   |   |       |   |   | • | • | 74 |
| 4–7 | Freely falling bodies . :              | • | • |       | • | • |   |   | 76 |
