	PAGE
Preface	v
CHAPTER I	1
HIGH POWER MICROSCOPY Electron microscopy compared with interferometry Scanning microscope	
CHAPTER II	4
INTERFERENCE FRINGES Fringe contours Multiple-beam interference	
CHAPTER III	7
EXPERIMENTAL TECHNIQUE Production of fringes Scale of fringes Glass surfaces Experimental arrangements	
CHAPTER IV	14
SPECULAR SURFACES Polished diamond Mica cleavages	
CHAPTER V	18
SURFACES OF NATURAL DIAMOND Diamond crystals Diamond trigons Etched diamond Stratigraphy Crossed fringes	
CHAPTER VI	30
QUARTZ CRYSTALS Crystal faces Quartz crystal oscillators Vibrating discs Quartz clock	
CHAPTER VII	40
SPIRALS ON SILICON CARBIDE Spiral growth Silicon carbide crystals Decoration	
CHAPTER VIII	50
HARDNESS TESTING Measurement of hardness Pyramid indentations Directional hardness	
CHAPTER IX	55
IMPACT AT HIGH SPEED Collision with a drop	
CHAPTER X	58
SOME TECHNICAL SURFACES Machined metals Low reflectivity multiple-beam fringes Two-beam interference Painted surfaces Surface of a tomato Conclusion
