

CONTENTS

Preface	ix
1. The Interdisciplinary Character of Color Science	1
Wallace R. Brode	
2. What is Color? An Introduction to Colorimetry	4
Ruth M. Johnston	
3. Color as an Aspect of Appearance	17
Robert S. Foster	
4. Instrumentation for Color Measurement	23
Fred W. Billmeyer, Jr.	
5. The Perception of Color	43
Ralph M. Evans	
6. Color-Difference Evaluation	69
David L. MacAdam	
7. Calculations for Colorant Formulations	87
Eugene Allen	
8. Colorant Formulation and Color Control in The Textile Industry ..	95
Roland E. Derby, Jr.	
9. Color Formulation and Control in the Vinyl Fabric Industry	119
Frederick T. Simon	
10. Color Formulation and Control in the Plastics Industry	128
Roger P. Best	
11. Color Formulation and Control in the Paint Industry	146
Sam J. Huey	
Index	171
