

TABLE OF CONTENTS

Foreword, by Dr. Carl Djerassi	v
Preface	vii
QUALITATIVE DATA	
Chapter 1/ The Infrared Spectrum	1
Chapter 2/ Tables of Characteristic Frequencies	17
2.1. Position of absorption bands	17
2.2. Intensity	17
2.3. Assignments	18
Table 1. Alkanes	20
Table 2. Alkenes	24
Table 3. Aromatics	26
Table 4. $X \equiv Y$, $X=Y=Z$ groups	28
Table 5. Alcohols and phenols	30
Table 6. Ethers and related groups	36
Table 7. Amines and ammonium salts	38
Table 8. Carbonyl groups	42
Table 9. Nitro, nitroso, etc.	50
Table 10. Heterocyclic compounds	52
Table 11. Sulfur groups	54
Table 12. Phosphorus groups	56
Table 13. Halogens and inorganic salts	57
Chapter 3/ Band Positions and Intensity	58
3.1. Band positions	58
3.2. Deuteration	63
3.3. Band intensities	63
Chapter 4/ Example of Absorption Band Shifts	65
PROBLEMS	71
ANSWERS.....	117
APPENDICES	
Appendix I/ NMR Data	223
Table 1. Approximate chemical shift of methyl, methylene, and methine protons, in τ or δ values, Me_4Si internal reference	223
Table 2. Chemical shift of miscellaneous protons	224
Table 3. Spin-spin coupling constants, J	224
Table 4. Dependence of J on the dihedral angle ϕ in the saturated system H-C-C-H	224
Appendix II/ Wave-number Wavelength Conversion Table	225
INDEX	230
General Index.....	230
Index of Compounds.....	232
