

## CONTENTS

<i>Preface</i>	ix
<i>Introduction</i>	1
1 Single Chromophores	15
2 Conjugated Chromophores	45
3 C-Aromatic Compounds	89
4 O- and S-Heteroaromatic Compounds	135
5 N-Heteroaromatic Compounds (Mono-Azines)	165
6 N-Heteroaromatic Compounds (Polyazines)	191
7 Some Applications of Spectrophotometry to the Analysis of Natural Products	204
8 Application of Spectral Data to Investigation of Gross Molecular Structure	228
9 Interpretation of the Ultraviolet Spectra of some Complex Molecules	313
<i>Appendix: Applications of Spectrophotometry in the Analysis of Steroids</i>	363
<i>Bibliography</i>	432
<i>Index</i>	434
<i>Volumes Published in this Series</i>	445
