

Table of Contents

| | | |
|-----------|---|-----------|
| 1. | Introduction | 1 |
| 2. | General, Types of Spectra, Frequency Ranges | 3 |
| 3. | Pure Rotation Spectra | 15 |
| 3.1. | Diatomic and linear polyatomic molecules | 15 |
| 3.2. | Non-linear molecules | 21 |
| 3.3. | The rotational Raman spectrum | 24 |
| 4. | Rotation-Vibration Spectra | 27 |
| 4.1. | Harmonic and anharmonic oscillator | 27 |
| 4.2. | The vibrating non-rigid rotator | 35 |
| 4.3. | Rotational-vibrational Raman spectrum | 40 |
| 4.4. | Vibration spectra of polyatomic molecules | 42 |
| 4.5. | Rotation-vibration spectra of polyatomic molecules | 47 |
| 5. | Electronic Band Spectra of Diatomic Molecules | 49 |
| 5.1. | Vibrational structure of electronic transitions | 50 |
| 5.2. | Rotational structure of electronic transitions | 55 |
| 5.3. | Potential energy curves of diatomic molecules | 61 |
| 6. | Intensities and Selection Rules | 67 |
| 6.1. | General | 67 |
| 6.2. | Selection rules for rotational and rotational-vibrational transitions | 69 |
| 6.3. | Selection rules in the Raman effect | 72 |
| 6.4. | Selection rules for electronic transitions | 74 |
| 6.5. | Intensities | 75 |
| 6.5.1. | Relative intensities in the rotational structure of electronic transitions | 77 |
| 6.5.2. | Relative intensities in the rotation-vibration spectrum | 78 |
| 6.5.3. | Intensity distribution in the pure rotation spectrum | 79 |
| 6.5.4. | Relative intensities in the vibrational structure of electronic transitions | 79 |
| 7. | Electronic States of Diatomic Molecules | 85 |
| 7.1. | Electronic states and quantum numbers | 85 |
| 7.2. | Coupling of rotational and electronic motion, Hund's coupling cases | 90 |
| 7.3. | Selection rules and band types | 97 |

| | | |
|-----------|--|------------|
| 8. | Correlation Rules and the Aufbau Principle for the Determination of the Term Manifold of Diatomic Molecules | 103 |
| 8.1. | The non-crossing rule and the Wigner-Witmer correlation rules | 104 |
| 8.2. | Molecular orbitals and the aufbau principle | 115 |
| 9. | Electronic States of Simple Polyatomic Molecules | 143 |
| 9.1. | Walsh's rules and diagrams | 143 |
| 9.2. | Dihydrides AH_2 | 151 |
| 9.3. | Molecules of the type HAB | 158 |
| 9.4. | Molecules of types AB_2 and ABC | 161 |
| | References | 173 |
| | Subject Index | 175 |
| | Molecule Index | 179 |
