

## CONTENTS

	PAGE
FOREWORD .....	iii
THE SPECTROGRAPH AS AN AID IN CRIMINAL INVESTIGATION — JOSEPH T. WALKER, <i>Massachusetts State Police</i> .....	1
APPLICATIONS OF THE SPECTROGRAPH TO CRIMINAL INVESTIGATION — CHARLES W. RANKIN, <i>New York State Police Laboratory</i> .....	6
SPECTROSCOPIC DETECTION OF RARE EARTHS IN PLANTS — BOURDON F. SCRIBNER, <i>National Bureau of Standards</i> .....	10
SIMULTANEOUS QUANTITATIVE DETERMINATION OF SEVEN ELEMENTS IN GRASSES AND LEGUMES SPECTROGRAPHICALLY — B. C. BRUNSTETTER, A. T. MYERS, H. L. WILKINS, and M. A. HEIN, <i>United States Department of Agriculture</i> .....	14
SPECTROSCOPIC METHODS OF VITAMIN MEASUREMENT — R. L. MCFARLAN, <i>United Drug Company</i> .....	20
APPLICATIONS OF ULTRAVIOLET ABSORPTION SPECTRA IN ESTABLISHING THE STRUCTURE OF VITAMIN B <sub>1</sub> — A. E. RUEHLE, <i>Bell Telephone Laboratories</i> .....	27
SPECTROSCOPIC STUDIES ON ENZYME SYSTEMS — T. R. HOGNESS, <i>University of Chicago</i> .....	31
ON IDENTIFYING MINERALS WITH THE AID OF THE SPECTROGRAPH — O. IVAN LEE and THOMAS A. WRIGHT, <i>Lucius Pitkin, Inc.</i> .....	38
QUANTITATIVE ANALYSIS BASED ON SPECTRAL ENERGY — MORRIS SLAVIN, <i>United States Bureau of Mines</i> .....	46
ANALYSIS OF MATERIALS BY FLUORESCENT METHODS — W. E. ALBERTSON, <i>Massachusetts Institute of Technology</i> .....	48
THE SPECTROGRAPH AS AN ANALYTICAL TOOL FOR MEDICAL USE — HENRY R. KREIDER, <i>American Medical Association Laboratory</i> .....	51
CHARACTERISTICS OF SPECTROSCOPIC LIGHT SOURCES — R. A. SAWYER and H. B. VINCENT, <i>University of Michigan</i> .....	54

## CONTENTS

<b>INFLUENCE OF IMPURITIES ON LINE STRENGTH IN QUANTITATIVE ANALYSIS</b> — WALLACE R. BRODE and R. W. SILVERTHORN, <i>Ohio State University</i> .....	60
<b>THE QUANTITATIVE SPECTROCHEMICAL ANALYSIS OF MIXTURES OF GASES</b> — R. A. WOLFE and O. S. DUFFENDACK, <i>University of Michigan</i> .....	66
<b>CHARACTERISTICS OF THE EAGLE MOUNTING OF THE CONCAVE GRATING</b> — G. H. DIEKE, <i>The Johns Hopkins University</i> .....	71
<b>A PRACTICAL GRATING SPECTROGRAPH FOR INDUSTRIAL USE</b> — W. S. BAIRD, <i>Baird Associates</i> .....	80
<b>AN IMPROVED DENSITY COMPARATOR</b> — J. W. FORREST, <i>Bausch and Lomb Optical Company</i> .....	88
<b>A HIGH-SPEED METHOD OF ABSORPTION SPECTROPHOTOMETRY FOR THE RANGE 10,000 TO 2000 Å</b> — GEORGE R. HARRISON, <i>Massachusetts Institute of Technology</i> .....	91
<b>STANDARD HELIUM LAMP FOR MEASURING INTENSITIES OF SPECTRAL LINES</b> — O. S. DUFFENDACK and R. A. WOLFE, <i>University of Michigan</i> .....	97
<b>APPLICATION OF ISODENSITY CONTOURING METHODS TO SPECTRUM PHOTOMETRY</b> — BRIAN O'BRIEN, <i>University of Rochester</i> .....	101
<b>A SIMPLE METHOD FOR TESTING DISPERSION FILTERS</b> — F. WEIGERT, <i>University of Glasgow</i> .....	110
<b>BIBLIOGRAPHY OF SPECTROCHEMICAL ANALYSIS, 1920-1937</b> — WILLIAM F. MEGGERS and BOURDON F. SCRIBNER, <i>National Bureau of Standards</i> ..	112
<b>STANDARD WAVELENGTHS</b> — WILLIAM F. MEGGERS, <i>National Bureau of Standards</i> .....	114
<b>NEW TABLES OF THE 100,000 PRINCIPAL SPECTRUM LINES OF THE CHEMICAL ELEMENTS BETWEEN 10,000 Å and 2000 Å</b> — GEORGE R. HARRISON, <i>Massachusetts Institute of Technology</i> .....	118
<b>THE APPLICATION OF SPECTROGRAPHIC METHODS TO THE DETERMINATION OF TOTAL BODY WATER WITH SULFANILAMIDE</b> — ELIZABETH E. PAINTER, <i>Columbia University</i> .....	125
<b>THE STRUCTURE AND ABSORPTION SPECTRA OF AZO DYES</b> — WALLACE R. BRODE, <i>Ohio State University</i> .....	128

# CONTENTS

vii

PHOTOCHEMISTRY OF THE VISUAL SPECTRUM — F. WEIGERT, <i>University of Glasgow</i> .....	134
CONVERSION OF LIGHT INTO CHEMICAL ENERGY — E. RABINOWITCH, <i>University College, London</i> .....	143
SOME BAND SPECTRA IN EMISSION AT ATMOSPHERIC PRESSURE AND ORDINARY TEMPERATURE — OLIVER R. WULF and EUGENE H. MEL- VIN, <i>Bureau of Chemistry and Soils</i> .....	150
SPECTROSCOPIC PLATES AND THEIR SENSITIZATION — B. H. CARROLL, <i>Eastman Kodak Company</i> .....	151
THE PHOTOGRAPHIC LATENT IMAGE FROM THE STANDPOINT OF THE MODERN THEORY OF SOLIDS — J. H. WEBB, <i>Eastman Kodak</i> <i>Company</i> .....	157
INDEX.....	169
