

# Contents

## RESOURCES

- Carbon and Hydrogen Sources—the Supplier  
P. I. WALTERS 3
- Carbon and Hydrogen Sources—the User  
P. V. YOULE and J. R. STAMMERS 21
- Energy from Electrochemical Reactions  
A. B. HART 41
- Water—an Overall Picture  
H. FISH 55

## STAYING ALIVE

- Protection and Preservation of Food Supplies  
R. F. CRAMPTON 67
- Novel Sources of Proteins  
B. M. LAINÉ 69
- Promotion and Regulation of Plant Growth  
D. L. GERWITZ 79
- Staying Alive—and Healthy  
(Royal Institute of Chemistry Presidential Address)  
F. A. ROBINSON 91

## ENJOYING LIFE

- Chemistry and Aging  
C. G. KORMENDY 113

Flavour, Taste, and Smell A. T. JAMES	123
Chemistry, Colour, and Communication G. F. DUFFIN	137
Proficiency with Polymers C. E. HOLLIS	149
<b>KEEPING IT CLEAN</b>	
The Biological Effects of Chemical Substances M. W. HOLDGATE	179
Recycling and Renovation of Water M. N. ELLIOTT and D. C. SAMMON	197
The Role of the Chemist in Keeping the Air Clean J. S. S. REAY	207
<b>MEETING THE NEEDS—THE BALANCE</b>	
Future Economics of Industrial Innovation K. HANSEN	221
Education, Training, and Research in Universities S. F. EDWARDS	235
<b>SUMMARY</b>	
Chairman's Concluding Remarks J. W. BARRETT	247
