PREFACE TO THE FIRST EDITION v

PREFACE TO THE THIRD EDITION ix

I PRINCIPLES OF CHEMISTRY

1	Methods of Chemistry	3
2	Nature of Matter	21
3	Atoms	35
4	Chemical Bond	79
✓5	Stoichiometry	103
✓6	Gases	133
✓7	Liquids	167
✓8	Solids	177
9	Changes of State	191
10	Solutions	207
11	Colloids	245
12	Chemical Kinetics	253
✓13	Chemical Equilibrium	269
14	Electrochemistry	293

II

CHEMICAL ELEMENTS
AND THEIR COMPOUNDS

15	Hydrogen	321
16	Oxygen	333
17	Aqueous Solutions	349
18	The Alkali Metals	389
19	The Alkaline-earth Metals	399
20	Transition Elements I Sc, Ti, V, Cr, and Mn Subgroups	415
21	Transition Elements II Iron-triad and Platinum Metals	435
22	Transition Elements III Copper and Zinc Subgroups	453
23	Group III Elements	471
24	Group IV Elements	483
25	Group V Elements	513
26	Group VI Elements	535
27	The Halogens	549
28	Organic Chemistry	565
29	Nuclear Structure and Radioactivity	587

APPENDIXES

1	Nomenclature of Inorganic Chemistry	601
2	Exponential Numbers	605
3	Mathematical Operations	607
4	Definitions from Physics	615
5	Units and Conversion Factors	619
6	Vapor Pressure of Water	621
7	Oxidation Potentials	623
8	Equilibrium Constants	625
9	References	627
