

<i>Preface</i>	xi
Chapter One. STEROID HYDROCARBONS	
References	5
Chapter Two. KETONES	
2.1. Saturated Ketones	6
A. 1-Ketones	6
B. 2-Ketones	7
C. 3-Ketones	8
D. 4-Ketones	9
E. 6-Ketones	11
F. 7-Ketones	13
G. 11-Ketones	14
H. 12-Ketones	15
I. 15-Ketones	19
J. 16-Ketones	21
K. 17-Ketones	22
L. 20-Ketones	24
2.2. α,β -Unsaturated Ketosteroids	26
A. Δ^1 -3-Ketones	26
B. Δ^2 -1-Ketones	27
C. Δ^4 -3-Ketones	28
D. Δ^4 -3,6-Diketones	31
E. $\Delta^{9(21)}$ -12-Ketones	32
F. Δ^{16} -20-Ketones	34
G. $\Delta^{17(20)}$ -16-Ketones	35
H. Δ^4 -6-Aza-7-Ketosteroids	36
2.3. Stereochemical Considerations	37
A. <i>Trans</i> - and <i>Cis</i> -A/B Isomeric Ketones	37
B. <i>Trans</i> - and <i>Cis</i> -C/D Isomeric Ketones	41
C. <i>Trans</i> - and <i>Cis</i> -B/C Isomeric Δ^4 -3-Ketones	42

- D. 17α - and 17β -20-Ketones
- E. Other Stereoisomeric Ketones

References

Chapter Three. STEROIDAL ALCOHOLS

- 3.1. Structure Elucidation and Location of Hydroxyl
 - A. 11-Hydrosteroids
 - B. 12-Hydrosteroids
 - C. 9-Hydrosteroids
 - D. 14-Hydrosteroids
 - E. 15- and 16-Hydrosteroids
 - F. 17-Hydrosteroids
 - G. 20-Hydrosteroids
 - H. 21-Hydrosteroids
 - I. 24-, 25- and 26-Hydrosteroids
 - J. 19-Hydrosteroids
 - K. Some Polyhydroxysteroids
- 3.2. Stereochemical Considerations
 - A. 3α - and 3β -Alcohols
 - B. 11α - and 11β -Alcohols
 - C. 12α - and 12β -Alcohols
 - D. 16α - and 16β -Alcohols
 - E. 15α - and 15β -Alcohols
 - F. 17α - and 17β -Alcohols
 - G. Some Dihydroxysteroids
 - H. Epimeric Alcohols with a Hydroxyl in the Side Chain
 - I. Tertiary Alcohols of the D-Homo Series and Their Acetates
 - J. Tertiary 17α - and 17β -Alcohols with a 5-Membered Ring D
 - K. Steroid Alcohols Differing in the Stereochemistry of CH_3 , COOCH_3 and COCH_3 Groups
 - L. *Trans*- and *Cis*-A/B Isomeric Alcohols

References

Chapter Four. STEROID OLEFINS

- A. Δ^2 -Unsaturated Steroids 105
- B. Δ^1 - and Δ^3 -Unsaturated Steroids 106
- C. Δ^4 - and Δ^5 -Unsaturated Steroids 107
- D. Δ^{35} -Dienes 107
- E. Δ^{57} -Dienes. 109
- F. Δ^7 -Unsaturated Steroids 107
- G. Δ^8 -Unsaturated Steroids 109

H. $\Delta^{9(11)}$ -Unsaturated Steroids	110
I. $\Delta^{8(14)}$ -Unsaturated Steroids	110
J. $\Delta^{13(14)}$ -Unsaturated Steroids	111
K. Olefins with the Double Bond in the Side Chain	111

References

Chapter Five. BILE ACIDS

5.1. Saturated Bile Acids	119
A. Hydroxy and Keto Acids	119
B. Acetates and Trifluoroacetates	125
5.2. α, β -Unsaturated Ketones of Cholanic and Bisnorcholanic Acids	129
A. Δ^4 -3,12-Diketones	129
B. Δ^{46} - and $\Delta^{49(11)}$ -Diketones	131
C. 12-Hydroxy- Δ^4 - and Δ^{46} -3-Ketones	133
References	134

Chapter Six. ESTROGENS

6.1. Structure Elucidation	135
A. Estrones	135
B. Δ^6 - and Δ^7 -Dehydroestrone	136
C. $\Delta^{9(11)}$ -Dehydroestrone	137
D. $\Delta^{8(9)}$ -Dehydroestrone	138
E. $\Delta^{8(14)}$ -Dehydroestrone	139
F. $\Delta^{14(15)}$ -Dehydroestrone	139
G. Equilenins	140
H. 17 β -Hydroxyestrone (Estradiols)	141
I. Aromatic Seco-Steroids	141
6.2. Stereochemical Considerations	145
A. <i>Cis</i> and <i>Trans</i> Isomers of the Estrane Series	145
B. <i>Cis</i> and <i>Trans</i> Isomers of the D-Homoestrane Series	149
C. Stereoisomers of the 14-Hydroxy-D-Homoestrone Series	154
D. Stereoisomers of the 14-Hydroxyestrone Series	160
E. Energy Approach to Solving Stereochemical Problems by Mass Spectrometry	161
Conclusion	171
References	171
