

Contents

<i>Preface</i>	vii
1 Units and Methods of Expression in Physical Chemistry	1
2 Thermodynamics and Chemical Equilibria	18
3 Statistical Thermodynamics	39
4 Solutions and Phase Equilibria	53
5 Reaction Kinetics	72
6 Electrochemistry	105
7 Colloid and Surface Science	126
8 Molecular Structure	149
Answers to Additional Examples	172
Appendix I Physical Constants	185
Appendix II Conversion Factors	187
Appendix III Relative Atomic Masses	188
Logarithms	192
Antilogarithms	194
<i>Index</i>	197
