

# CONTENTS

## GENERAL PROCEDURES

Laboratory Work and Reports .....	3
Sample Report—Intrinsic Viscosity: Chain Linkage in Polyvinyl Alcohol .....	6

## II TREATMENT OF EXPERIMENTAL DATA

Systematic and Random Errors .....	13
Frequency Distribution; Location and Dispersion Indices ...	14
Significant Figures .....	23
Propagation of Errors .....	24
Curve Fitting by Least Squares .....	27
Rejection of Data .....	31
Graphic Methods .....	31

## III GASES

1. Second Virial Coefficient and Pressure-Volume-Temperature Data of Gases .....	37
2. Critical Constants; Law of Rectilinear Diameter .....	45
3. Viscosity of Gases .....	53
4. The Joule-Thomson Coefficient of Real Gases.....	59

## IV THERMODYNAMICS

5. Heat Capacity Ratios of Gases .....	69
6. Heat of Mixing* .....	75

7. Heat of Combustion .....	83
8. Temperature Dependence of Vapor Pressure; Heat of Vaporization* .....	94
9. Partial Pressures and Excess Thermodynamic Functions of Liquid Mixtures* .....	103
10. Temperature Dependence of Solubility of Solids* .....	114
 <b>V ATOMIC AND MOLECULAR STRUCTURE</b>	
11. Emission Spectrum of Lithium (I) .....	121
12. Infrared Spectrum* .....	130
13. Electronic Spectra of Charge Transfer Complexes: DMSO-I <sub>2</sub> .....	141
14. Polarizability; Refractive Index* .....	148
15. Dipole Moment; Dielectric Constant* .....	154
16. Proton Magnetic Resonance* .....	163
17. Rayleigh Light Scattering and Depolarization of Binary Liquid Mixtures* .....	170
18. Electron Spin Resonance Spectra .....	180
 <b>VI LIQUIDS</b>	
19. Density and Partial Molar Volumes of Solutions* .....	191
20. Viscosity of Liquids* .....	196
21. Surface Tension* .....	201
 <b>VII SOLIDS</b>	
22. X-Ray Diffraction Patterns of Dimethyl Sulfoxide (DMSO) and Water* .....	211
23. Differential Thermal Analysis; Second and First Order Transitions in Polystyrene; Kinetics of Pyrolysis .....	224
 <b>VIII PHASE EQUILIBRIA</b>	
24. Boiling Point—Composition Diagrams of Binary Systems* ...	235
25. Cooling Curves; Phase Diagram of Condensed Binary Systems*	241

26. Phase Diagram of a Three-Component Partially Immiscible Liquid System* .....	250
27. Phase Diagram of a Three-Component Aqueous System ..	257
<b>IX KINETICS</b>	
28. Inversion of Sucrose; Kinetics of a Pseudo-First Order Reaction Determined by Polarimetry .....	
29. Kinetics of a Gas Phase Polymerization Reaction.....	278
30. Effect of Solvent on the Kinetics of Acetal Hydrolysis by Dilatometry* .....	286
31. Primary Salt Effect in Kinetics of Ionic Reactions .....	292
32. Kinetics of Enzyme Reactions; Activity of Tyrosinase	297
<b>X RADIOACTIVITY</b>	
33. Radioactive Decay .....	307
34. Radioisotope Dilution Technique.	315
<b>XI ELECTROCHEMISTRY</b>	
35. Conductance of Electrolytes* .....	
36. Transference Number* .....	331
37. Polarography: Determination of the Stability Constant of a Complex Metal Ion .....	
38. Dissociation Constant Determination by Potentiometric Titrations* .....	
<b>XII SURFACE PHENOMENA</b>	
39. Insoluble Monolayers at Mobile Interfaces .....	361
40. Water Vapor Sorption Isotherms of Solids; Hysteresis	368
41. Adsorption at Solid-Liquid Interfaces* .....	378
42. Zone (Gel) Electrophoresis of Proteins .....	388
<b>XIII MACROMOLECULES</b>	
43. Osmotic Pressure .....	399
44. Molecular Weight Distribution by Gel Filtration	403

45. Macromolecular Properties as Determined by Light Scattering .....	
46. Determination of Cohesive Energy Densities of Polymers by Turbidimetric Titration .....	
47. Helix-Coil Transition as Determined by Polarimetry and Viscosity Measurements .....	432
48. Fiber Pattern in X-ray Diffraction; Orientation of Crystallites in Plastics .....	443
49. Strain Birefringence of Polyethylene .....	449

#### **XIV ELECTRONICS**

*by Donald T. Opalecky*

Ground .....	462
Voltage Measurements .....	463
Current Measuring Devices .....	466
Voltmeters .....	468
Resistance Measurement .....	468
Alternating Voltage and Reactive Components	470
Voltage Sources .....	473
Amplifiers .....	477
Special Purpose Amplifiers .....	484
Instruments .....	484

#### **XV APPENDIX**

Computer Programming .....	495
First Example: Zimmo Plot of Light Scattering .....	495
Second Example: Indexing Reflections of an X-ray Powder Diagram .....	499
Third Example: Curve Fitting by Least Squares .....	506

#### **INDEX**
