

# CONTENTS

<b>Introduction</b> . . . . .	<b>1</b>
<i>Leonard Stoloff, Marine Colloids, Inc., Rockland, Maine</i>	
Practical Aspects of Viscosities of Natural Gums . . . . .	<b>5</b>
<i>S. J. Werbin, Basic Foods, Inc., Englewood, N. J.</i>	
Some Aspects of Hydrocolloid Gelation . . . . .	<b>14</b>
<i>R. E. Schachat and L. Z. Raymond, Research Center, General Foods Corp., Tarrytown, N. Y.</i>	
Some Problems of the Gelation of Gelatin . . . . .	<b>25</b>
<i>Bernard Idson, Julius Schmid, Inc., New York, N. Y., and Emory Braswell, New York University, New York, N. Y.</i>	
Some Structural Aspects of the Gel Formation of Pectins and Related Polysaccharides . . . . .	<b>37</b>
<i>Jurg Solms, La Tour-de-Peilz, Vaud, Switzerland</i>	
Functional Aspects of Hydrocolloids in Controlling Crystal Structure in Foods . . . . .	<b>45</b>
<i>N. H. Nash, Lanco Products Corp., 601 West 36th St., New York 1, N. Y.</i>	
Theoretical Aspects of Hydrocolloids in Controlling Crystal Structure in Foods . . . . .	<b>59</b>
<i>A. C. Shuman, Shuman Chemical Laboratory, Inc., Battle Ground, Ind.</i>	
Some Lesser Known Aspects of Stability in Commercial Emulsions . . . . .	<b>64</b>
<i>B. R. Harris, Epstein, Reynolds and Harris, Chicago, Ill.</i>	

Emulsions and Foams . . . . .	69
<i>Bernard Wolnak</i> , Chemlab, Inc., Franklin Park, Ill. <i>L. F. Barrington</i> , A. E. Staley Mfg. Co., Decatur, Ill. <i>Lucille Faller</i> , Homewood, Ill.	
Practical Aspects of Foam Stabilization . . . . .	✓73
<i>Justin Alikonis</i> , Al-Chem Laboratory, Inc., Bloomington, Ill.	
Formation and Stability of Foams . . . . .	✓79
<i>J. J. Bickerman</i> , Massachusetts Institute of Technology, Cambridge, Mass.	
Practical Aspects of Dispersions . . . . .	82
<i>Samuel Prussin</i> , Aerosol Techniques, Inc., Bridgeport, Conn. <i>George Lieberman</i> , Rexall Drug Co., Los Angeles, Calif. <i>J. R. Lindquist</i> , Thayer Laboratories, Inc., New York, N. Y.	
Physical Stability of Dispersions . . . . .	92
<i>R. R. Myers</i> , Lehigh University, Bethlehem, Pa.
