PREFACE	ix
I. INTRODUCTION	
1-1 Association Colloids	1
1-2 Soap Films	2
1-3 The Color and Blackness of Soap Films	4
1-4 Experimental	7
II. PRINCIPAL THINNING MECHANISMS	
2-1 Types of drainage	10
<i>A.</i> Rigid Film	11
<i>B.</i> Simple Mobile Film	12
<i>C.</i> Irregular Mobile Film	12
<i>D.</i> Intermediate Behavior	12
2-2 Static and Dynamic Mechanisms	13
2-3 Measures of Drainage	13
2-4 Static Mechanisms of Thinning	14
<i>A.</i> Stretching	14
<i>B.</i> Viscous Flow	17
<i>C.</i> Evaporation	18
2-5 Dynamic Mechanisms of Thinning	19
<i>A.</i> Gravity Convection	19
<i>B.</i> Marginal Regeneration	20
2-6 The Plausibility of Marginal Regeneration	21
2-7 Correlation with Foams	24
III. THE THINNING OF RIGID FILMS	
3-1 Viscous Flow	26
3-2 Evaporation	30
3-3 Three-Component Systems	32
IV. THE THINNING OF MOBILE FILMS	
4-1 Cylindrical Films	34

4-2	Horizontal Films	36
4-3	Inclined Borders	37
4-4	Two-Dimensional Density	38
4-5	Flow in Border	38
4-6	Rates of Descent	40
4-7	Effect of Height and the Descent Constant	41
4-8	Effect of Width and the Slimming Constant	44
V. HYDRODYNAMIC THEORY OF MARGINAL REGENERATION		
5-1	The Problem	47
5-2	Assumptions	47
5-3	Stationary Film	49
5-4	Moving Film	50
5-5	Basic Equations	52
5-6	Thickness of Film Drawn Out	53
5-7	Excess Tension of Film Drawn From a Border	56
5-8	The Work of Drawing Film From a Border	57
5-9	Gravity Effects	58
5-10	Film Falling Into a Border	58
5-11	Thickness, Excess Tension and Stability	60
5-12	The Minimum Thickness Ratio	63
	Appendix : Computational Procedure	64
VI. THE BLACK FILM AND THE IRREGULAR MOBILE FILM		
6-1	The Black Film	66
6-2	Experimental	67
6-3	Computation of Thickness	68
6-4	The Multiplicity of Black Films	69
6-5	The Second Black Film	70
6-6	The Thickness of the Second Black Film	71
6-7	The Decrement of Thickness at the Silver-Black Boundary	72
6-8	The Stability of the Black Film	74
6-9	Line Tension	76
6-10	Non-Coalescence	77
6-11	The Irregular Mobile Film	77
6-12	Explanation of Irregular Behavior	78

VII. TWO-DIMENSIONAL HYDRODYNAMICS AND SURFACE VISCOSITY	
7-1 Two-Dimensional Analogies	80
7-2 Expansion and Contraction	81
7-3 Flow of Film	82
7-4 Two-Dimensional Stokes' Law	85
7-5 Exploratory Measurements	86
BIBLIOGRAPHY	89
BIBLIOGRAPHICAL INDEX	108
INDEX	111
