

## CONTENTS

FOREWORD .....	1
ION-EXCHANGE AND SORPTIVE PROPERTIES OF ACTIVATED CHARCOALS	
STRAZHESKO, D.N. and I.A.TARKOVSKAYA. Chemical nature of the surface, selective ion exchange, and surface complex-formation on oxidized charcoal .....	7
IVANOVA, L.S., S.L.GRABCHAK, D.N.STRAZHESKO, and E.S.MATSKEVICH. Radiometric study of the kinetics of cation exchange on charcoals oxidized by different methods .....	25
IVANOVA, L.S. and D.N.STRAZHESKO. Study of the mechanism of adsorption of salts by active charcoal from aqueous solutions .....	31
KOSTYUCHENKO, P.I., I.A.TARKOVSKAYA, T.I.KONONCHUK, T.G.KOVALENKO, and Z.L.GLUSHANKOVA. The mechanism of selective sorption of traces of vanadium ions by active charcoals .....	37
KIRICHENKO, V.A., T.M.LEVCHENKO, and A.M.KOGANOVSKII. Adsorption of mixtures of organic substances from aqueous solutions .....	50
METHODS OF PREPARATION, STRUCTURE AND SORPTIVE PROPERTIES OF DISPERSE SILICA, ALUMINUM OXIDES AND ZEOLITES	
VYSOTSKII, Z.Z. and D.N.STRAZHESKO. Isoelectric state of disperse silicas and ion exchange in acid solutions .....	55
VYSOTSKII, Z.Z., V.I.GALINSKAYA, V.I.KOLYCHEV, V.V.STRELKO, and D.N.STRAZHESKO. The role of polymerization and depolymerization reactions of silicic acid in the formation and rearrangement of the skeleton of gels .....	72
SHEINFAIN, R.Yu. and I.E.NEIMARK. Role of the ageing of silicic acid hydrogel in the formation of the porous structure of silica gel ....	87
BUTSKO, Z.L. and P.M.STADNIK. Influence of an electrical field on the structure of a silica gel .....	96
VYSOTSKII, Z.Z., V.A.KANIBOLOTSKII, B.M.MITSYUK, V.V.STRELKO, and V.M.CHERTOV. The structure of the primary particles forming the skeleton of polysilicic acid gels .....	101
ZELENTSOV, V.I., V.M.CHERTOV, and B.N.LYASHKEVICH. Study of the hydrothermal modification of highly disperse aluminum oxide ..	109

PIONTKOVSKAYA, M.A., A.M.EREMENKO, G.I.DENISENKO, and I.E.NEIMARK. Study of the adsorption of molecules of different electronstructure on zeolite by the method of proton magnetic resonance .....	117
IL'IN, V.G. and I.E.NEIMARK. Some methods for the directed modification of the properties of zeolites .....	128
PRODUCTION OF MODIFIED AND IRRADIATED SILICA SORBENTS AND STUDY OF THEIR CHEMICAL AND ADSORPTION PROPERTIES	
SLINYAKOVA, I.B., I.M.SAMODUMOVA, and I.E.NEIMARK. Adsorption of pyridine and dioxane from aqueous solutions on mixed adsorbents — zeolite-polyethylsiloxanes .....	132
SLINYAKOVA, I.B. and L.I.KURENNAYA. Production and study of the properties of mixed adsorbents, silico-polyvinylsiloxanes .....	138
SLINYAKOVA, I.B., I.E.NEIMARK, and V.N.MISHCHENKO. Adsorption of aliphatic amines on an organosilicon sorbent — xergel of poly-(chloromethyl)-siloxane .....	144
KLIMOVICH, V.M., A.A.CHUIKO, V.A.TERTYKH, and I.E.NEIMARK. Study of the adsorption of acetylacetone on silica and organosilicas .....	149
BURUSHKINA, T.N., V.V.STRELKO, L.A.SHURUPOVA, and B.L.AVETISYANTS. Adsorption properties of aminosilica gels .....	159
GANYUK, L.N. Modified silica surfaces as a result of the reaction of silanol groups with monosilane .....	166
GANYUK, L.N. Study of free radicals on the surface of ethoxysilica .....	172
KANIBOLOTSKII, V.A., V.I.GALINSKAYA, V.V.STRELKO, and O.V.LUKASHEVICH. Properties of disperse silica with a specific adsorption capacity for a given substance .....	180
KANIBOLOTSKII, V.A. and V.V.STRELKO. Influence of the nature and amount of the substance-former on the structure-adsorption properties of specific silica gels .....	185
SUPRUNENKO, K.A., V.V.STRELKO, D.I.SHVETS, and A.M.KABAKCHI. Study of the isotopic composition of hydrogen formed during the radiolysis of hexane on the surface of silica gel with OD—groups .....	192
SHVETS, D.I., N.T.KARTEL', K.A.SUPRUNENKO, and V.V.STRELKO. EPR spectra of $\gamma$ -irradiated compounds chemisorbed on silica gel .....	199
ADSORPTION ON HETEROPOLAR INORGANIC ADSORBENTS	
BOGATOVA, N.F., G.G.BUDERASKAYA, and M.V.TOVBIN. Adsorption of water vapor on silver iodide crystals .....	207
BOGATOVA, N.F., G.G.BUDERASKAYA, and M.V.TOVBIN. Study of the adsorption of water vapor on sodium chloride crystals .....	213

BLASHCHUK, Zh.G. and Yu.M.GLAZMAN. Study of the adsorption of oxyethylated alcohols from aqueous solutions on arsenic sulfide powder .....	219
STUDY OF CHEMISORPTION AND MASS TRANSFER DURING ABSORPTION	
ROEV, L.M. and L.M.DUDKINA. Study of the adsorption of nitrogen oxide on the oxides of transition metals of the fourth period by the method of MO LKAO .....	225
VESELOV, V.V. Equations for the rate of mass transfer in an adsorption process .....	231
EXPLANATORY LIST OF ABBREVIATIONS .....	236
