

CONTENTS

Reference Marks in Tables	vi
Introduction	1
Figures	
1. Difference between Critical Solution Temperature and Aniline Point	7
2. Lower Critical Solution Temperature	8
3. Double Insolubility Areas Due to Allotropic Forms	8
4. Postulated CST Curve for Horizontal Melting Curve	9
5. Postulated CST Curve for Steep Melting Curve	9
6. Mutual Solubility of Liquids	10
Tables	
I Critical Solution Temperatures	11
II Aniline and Furfural Points, High Molecular Weight Hydrocarbons	189
III Lower Critical Solution Temperatures	209
IV Mutual Miscibility of Liquids—Bingham	212
V Mutual Miscibility of Liquids—Drury	213
VI Mutual Miscibility of Liquids—Sample, <i>et al.</i>	214
VII Mutual Miscibility of Liquids—Eslami & Dubois	215
VIII Mutual Miscibility of Liquids	218
Bibliography	218
