

CONTENTS

CHAPTER

1. REACTIONS OF CARBON MONOXIDE, <i>Milton Orchin and Irving Wender</i>	1
The Structure of Carbon Monoxide.....	
Reactions of Carbon Monoxide Catalyzed by Acids.....	6
Reactions of Carbon Monoxide Catalyzed by Bases.....	35
Reactions of Carbon Monoxide with Some Organometallic Compounds.....	41
Reactions of Carbon Monoxide with Alkali Metals.....	48
Reactions of Carbon Monoxide Catalyzed by Nickel Compounds or Nickel Carbonyls.....	52
2. THE OXO REACTION, <i>Irving Wender, H. W. Sternberg and Milton Orchin</i>	73
Introduction.....	73
The Principal Reaction.....	75
Other Reactions Occurring Under Oxo Conditions.....	82
Kinetics.....	106
Mechanism of the Hydroformylation Reaction.....	112
3. DIRECT CATALYTIC SYNTHESIS OF HIGHER ALCOHOLS FROM CARBON MONOXIDE AND HYDROGEN, <i>G. Natta, U. Colombo and I. Pasquon</i>	
Introduction.....	131
Historical Review.....	133
Thermodynamic Considerations.....	134
Remarks on the Catalytic Synthesis of Higher Alcohols from CO and H ₂	140
Effect of the Nature of Promoters.....	141
Review of the Catalysts Proposed for the Synthesis of Higher Alcohols.....	146
Resistance of the Catalysts to Aging and Poisons.....	152
Effect of Space Velocity.....	157
Effects of Temperature and Pressure.....	157
Composition of the Product of the Direct Synthesis of Higher Alcohols.....	158
Mechanism of the Synthesis of Higher Alcohols.....	161
Conclusion.....	171
4. THE CATALYTIC HYDROGENATION OF AROMATIC COMPOUNDS, <i>Hilton A. Smith</i>	
Introduction.....	175

The Hydrogenation of the Benzene Nucleus.....	183
The Hydrogenation of the Pyrrole Nucleus.....	231
The Hydrogenation of the Pyridine Nucleus.....	234
The Hydrogenation of the Quinoline Nucleus.....	238
The Hydrogenation of Other Aromatic Compounds.....	240
5. HYDROGEN ISOTOPES IN THE STUDY OF HYDROGENATION AND EXCHANGE, <i>T. I. Taylor</i>	
Introduction.....	257
Dissociative Mechanism.....	259
Associative Mechanisms.....	273
Beek's Mechanisms and Evaporated Metal Films.....	305
Selective Hydrogenations - Acetylene Reactions.....	316
Stereochemical Additions.....	318
The Question of Dissociative Processes with Unsaturated and Saturated Hydrocarbons.....	319
Deuterium Exchange with Saturated Hydrocarbons on Hydrogenation Catalysts.....	322
Mass Spectrometric Investigations of Unsaturated Hydrocarbons.....	340
Theoretical Approaches.....	379
Enzymatic Hydrogenations.....	386
Homogeneous Hydrogenations.....	388
Deuterium Addition in the Preparation of Isotopic Tracers.....	390
Catalytic Hydrogenation of Carbonyl Compounds.....	391
6. THE HYDRODESULFURIZATION OF LIQUID PETROLEUM FRACTIONS, <i>Joseph B. McKinley</i>	
Introduction.....	405
Fundamentals.....	406
Catalysts.....	450
General Process Considerations.....	475
Gasoline Processing.....	483
Middle and Heavy Distillate Processing.....	488
Lubricating Oil Stock Processing.....	496
Whole Crude and Residual Oil Processing.....	497
Author Index.....	527
Subject Index.....	537
