

Contents

Preface	xi
1. Selectivity in Catalysis: An Overview.... Steven L. Suib	
STEREOSELECTIVITY	
2. Stereoselectivity: The Ultimate Challenge in Catalysis.....	22
D. Forster	
3. Asymmetric Catalytic Hydrogenation of 2-Arylacrylic Acids as a Low-Cost Route to Pharmaceutical Products.....	27
A. S. C. Chan, S. A. Laneman, and R. E. Miller	
4. Chiral Rhodium(II) Carboxamides: Remarkably Effective Catalysts for Enantioselective Metal Carbene Transformations.....	40
Michael P. Doyle	
5. Discrete Chiral Rhodium Phosphine Complexes as Catalysts for Asymmetric Hydrosilation of Ketones.....	58
T. E. Waldman, G. Schaefer, and D. P. Riley	
6. Catalytic Asymmetric Heck Reaction.....	75
Fumiyuki Ozawa, Akihiko Kubo, and Tamio Hayashi	
CLUSTERS, ALLOYS, AND POISONING	
7. Clusters, Alloys, and Poisoning: An Overview	88
Kenneth J. Klabunde and Yong-Xi Li	
8. Platinum–Tin–Alumina Catalysts: Comparison of Alkane Dehydrocyclization Activity and Characterization Data.....	109
Burtron H. Davis	

9. **Alkyne Coordination, Dimerization, and Scission on a Tungsten–Triiridium Cluster Core: Reaction Modeling Studies Related to Cluster-Derived Butane Hydrogenolysis Catalysts**..... 127
 John R. Shapley, Mark G. Humphrey, and
 Colin H. McAteer
10. **Platinum–Tin and Gold–Tin Bimetallic Particles Prepared from Solvated Metal Atoms: Structure and Catalysis** 136
 Yi Wang, Yong-Xi Li, and Kenneth J. Klabunde
11. **Mechanism and Selectivity in Catalytic Olefin Polymerization** 156
 A. R. Siedle, W. M. Lamanna, J. M. Olofson,
 B. A. Nerad, and R. A. Newmark
12. **Effect of a Model Hydrogenation on a Catalytic Palladium Membrane** 168
 Henry C. Foley, A. W. Wang, B. Johnson, and J. N. Armor
13. **Vanadium Migration between Model Components of Fluid Cracking Catalysts: SEM–EDX Studies** 185
 Yan-Fei Shen, Steven L. Suib, and Mario L. Occelli

SHAPE SELECTIVITY

14. **Shape-Selective Catalysis with Zeolites and Molecular Sieves**..... 206
 Charles B. Khouw and Mark E. Davis
15. **Reactions of *meta*-Diisopropylbenzene on Acid Molecular Sieves**..... 222
 Man-Hoe Kim, Cong-Yan Chen, and Mark E. Davis
16. **Methyl *tert*-Butyl Ether and Ethyl *tert*-Butyl Ether: Synthesis over Triflic Acid Modified Y-Zeolite** 233
 R. Le Vanmao, H. Ahlafi, and T. S. Le
17. **Design of Layered Phosphate Hosts Containing Multiply Bonded Bimetallic Guest Species**..... 244
 Yeung-gyo K. Shin, Eric A. Saari, Mark R. Torgerson,
 and Daniel G. Nocera

18. Nuclear Magnetic Resonance Imaging of Anisotropic Solid-State Chemical Reactions	260
Leslie G. Butler, David G. Cory, Joel B. Miller, Kerry M. Dooley, and Allen N. Garroway	
19. Homogeneous Adsorption of Benzene on NaX and NaY Zeolites.....	272
Shang-Bin Liu, Jin-Fu Wu, Long-Ja Ma, May-Whei Lin, and Tun-Li Chen	

REACTION PATHWAY CONTROL

20. Reaction Pathway Analysis: Global Molecular and Mechanistic Perspectives	290
Michael T. Klein, Matthew Neurock, Linda Broadbelt, and Henry C. Foley	
21. Preparation, Characterization, and Catalysis of a Modified ZSM-5 Zeolite.....	316
Anne M. Gaffney, C. A. Jones, John A. Sofranko, Chihji Tsiao, and Cecil Dybowski	
22. Effect of Catalyst Preparation on the Aromatization of <i>n</i>-Hexane over Pt Clusters Supported on Hydrotalcite	327
R. J. Davis and E. Mielczarski	
23. Reactions of Ethylene over RuY Zeolite.....	337
Y. S. Kye, S. X. Wu, and Tom M. Apple	
24. Activation of C–H, C–C, and C–O Bonds of Oxygenates on Rh(111)	345
N. F. Brown and M. A. Barteau	
25. Continuous Catalytic Conversion of Acetylene to Higher Hydrocarbons over a Metal Modified Shape Selective Zeolite Catalyst.....	355
Yigong He, Benjamin W.-L. Jang, and Richard B. Timmons	

26. Characterization of RuCl₃-Impregnated NaY Zeolite.....	372
Cathy L. Tway, Salvatore J. Bonafede, A. Mohamad Ghazi, Christopher P. Reed, Robert J. DeAngelis, and Tom M. Apple	
27. Non-Friely Product Distributions in Fischer-Tropsch Synthesis Catalyzed by Ruthenium, Cobalt, and Iron.....	383
Rostam J. Madon, Enrique Iglesia, and Sebastian C. Reyes	

INDEXES

Author Index	398
Citation Index	399
Subject Index.....	399
